

TWO WARRANTS ISSUED IN BANK DEAL

WEST APPROACH TO BRIDGE NOW UNDER CONTRACT

Agreement by Morton County Board Provided for Five Per Cent Grade from Bridge

WOULD REPUDIATE IT

Burleigh County Says It Cannot Spend Great Sum of Money to Build Morton Co. Viaduct

The original agreement between the state highway commission and commissioners of Morton county and Burleigh county including the provision for the approaches to the Bismarck-Mandan bridge contains the provision that a 5 per cent grade shall be constructed from the end of the west approach.

It is this agreement which the Burleigh county board says it stands by and which the Morton county board seeks to have abrogated. Both counties proposed to obtain separate agreements for federal aid projects for roads to the bridge, one in Burleigh county and one in Morton county, neither to be connected with the bridge project proper.

The agreement was made public today by Burleigh county authorities who declare they are willing to stand by it, but will not consent to the Mandan proposal that a viaduct be constructed from the west end of the bridge to Mandan which might cost Burleigh county taxpayers anywhere from \$90,000 to \$125,000. Morton county and Mandan citizens should stand the cost of a road on the west side of the river and Burleigh county and Bismarck the cost of a road on the east side of the river, they say.

Agreement Made

This agreement, made and entered into this 13th day of April, 1920, by and between Burleigh county by its Board of County Commissioners and Morton county by its Board of County Commissioners, or their authorized representatives, and the State Highway Commission of North Dakota.

The counties of Burleigh and Morton hereby jointly and severally agree that the funds that have been heretofore appropriated by them for the Missouri River project, or so much thereof as may be necessary, have been and are made available to the State Highway Commission for the construction of the structure and structural approaches of the proposed highway bridge over the Missouri River between Bismarck and Mandan, North Dakota, according to plans and specifications prepared by C. A. P. Turner as revised and submitted to the Bureau of Public Roads of the United States Department of Agriculture as Federal Aid Project No. 100 on the 30th day of December 1919, subject to revision to meet the requirements of the said Bureau of Public Roads; it being understood that the structure contemplated consists of three main spans totaling 1443 feet center to center of east and west main spans; that the structural approaches shall consist of approximately a 478 foot approach to the east end and approximately 622 feet to the west end of the main bridge; also that the west approach be built on a 5 per cent grade, which will bring the western extremity of the structure approximately 12 feet above the general ground level at that point. It is further agreed that earthen approaches constructed on a gradient not to exceed 5 per cent shall also be provided to reach the structural approaches a each end of the bridge.

Payments Stopped

The controversy was brought out in public through a meeting of Mandan citizens in which the citizens urged that the bridge be left uncompleted and the west end standing in the air unless the federal aid project under which the bridge was constructed is reopened and the cost of proposed viaduct into Mandan included as a part of the bridge contract.

The government has stopped payments on the bridge contract because of the attitude of the Morton county commissioners, it was learned at the state highway commission.

IN WITNESS WHEREOF, the parties of this contract have hereunto set their hands and seals on the day, month and year first above mentioned.

Burleigh County
By its
Board of County Commissioners,

WOMAN IN RACE FOR CONGRESS

Mrs. Winifred Mason Huck, daughter of the late Representative William E. Mason, of Chicago, wants to take her father's place in Congress. She has filed her petition for entry at the special election to fill the unexpired term of Representative Mason.

STAGE SET FOR BOYS' BANQUET AT HIGH SCHOOL

Rotary Club Will Give Annual Father and Son Dinner at 6:30 P. M.

Everything is set for the fathers and sons banquet to be held tomorrow evening at the High School gymnasium at 6:30 P. M. Committees of Rotarians met at the Elks club at noon today and put the finishing touches on the program.

All Rotarians, whether they have been selected as "daddies" or not, are expected to be present and act as hosts to the boys.

Every boy who has signed up with J. J. McLeod, director of the Boy Welfare work, whether he has a "daddy" or not, is to come anyway. About 170 boys have signed up and more boys are expected to join in the festivities. Mr. McLeod wants to meet the boys at the High School at 7:30 this evening to talk over the plans.

Guests for the banquet will meet promptly at the assembly room of the High School at 8:15 where a short reception will be held. Dads and their sons will meet at the High School.

D. R. Poole, director of boys work for the Province of Manitoba will be the speaker of the evening. Judge A. M. Christianson will be toastmaster. There will be a menu that the boys like and a fine program of songs to live up to the ru st.

Parents and those who have been elected "daddies" for the evening are urged to respond readily to the boys and make this second annual banquet a great success.

NO AID FROM PUBLIC SERVICE CORPORATIONS

New Association of Commerce Not to Solicit Memberships from Public Utilities

Steps have been taken to incorporate the Association of Commerce of Bismarck. Within a short time directors and officers will be selected to direct its affairs.

It has been decided by the guarantors of the association not to accept memberships or to solicit contributions from public utilities. Those who have signed petitions in many instances have expressed a desire to be free of all entanglements with public service corporations whether they be electric, water, gas or telephone corporations.

The sole aim of the new civic corporation is to work for the best interests of every section of Bismarck and that interest, many signers of the petitions, contend, may mean taking action when necessary to defend the best interests of the city.

In too many instances it is pointed out that heads of some organizations have been closely identified with public service corporations. To avoid any criticism that this association might be controlled by any clique or faction, it was decided not to solicit contributions or memberships from such sources, but to maintain an attitude of fairness to them all and to treat every issue between the city and such corporations absolutely upon its merits and in conformity with the best interests and welfare of Bismarck.

Those who initiated the Association of Commerce are pleased with the progress made so far in lining up the business interests of the city behind an organization whose motto will be a "Square Deal for Everyone."

TOWNLEY GETS LACINGS FROM TWO FACTIONS

Liederbach's Attack Continues While Townley Goes Gum-shoeing for "Power" Plan

I. V. A. HITS "POWER" PLAY

Organ of Association Against His Plan—Arrhus Attacks Walker, Maddock Again

A great deal has been heard as to how leaguers view the scrap between Townley and Liederbach, et al., over the course of the Nonpartisan league. How do anti-leaguers feel about it?

A general indifference as to what goes on in the league ranks is expressed by most of the anti-league newspapers. Both Townley and Liederbach generally are condemned and the fight looked upon as one of leaguers only, in which anti-leaguers need not be concerned.

The Independent Review, organ of the I. V. A., is particularly bitter toward Townley and his plan. It says: "The League's political machine is badly twisted at present. Townley believes that he has the remedy that will get it back into proper shape. He believes that Rojas, the Spanish play-wright, was right when he said: 'A mask of gold hides all deformities.' However, thousands of leaguers are taking issue with Townley on his 'get the gold' plan. A great many of them refuse to be sold."

It also refers to the Townley effort by saying that "Thousands of farmers who have blindly followed Townley and his bunch of grafters have now gotten their eyes open."

Townley Gum-shoeing.

Townley, apparently has dropped his open fight for adoption of his "balance of power" plan in North Dakota, and resorted to "gum shoe" tactics in the final stages of the pre-convention battle. Several ardent followers of Townley are reported to have gone into various parts of the state in an effort to "convert" followers to the latest doctrine of the league chief.

The league state committee's announcement of the reports received from precinct caucuses is to the effect that Townley is hopelessly beaten and discredited, and the attack upon him continues in the league Fargo organ. There are many leaguers who had at times held more or less power in the organization, however, that believe Townley will "put over" his plan at the convention. He is far from beaten, they say, and declare that county conventions will begin to show the strength of the league chief.

207 in Convention.

The league state committee announces that its state convention will be composed of 207 delegates. Cass county will have the largest number, 12 in all. Burleigh county will have 6; McLean, 7; Morton, 6; Kidder, 4; Dunn, 3; Emmons, 2; Hettinger, 2; McIntosh, 2; Logan, 2; Oliver, 2; Stark, 4; Sioux, 1; Bowman, 2. The basis of selection is one delegate at large and one delegate for each 500 votes cast for governor at the last election.

Dissatisfaction continues to be voiced by western leaguers on the calling of the state convention in Fargo, March 23. There still is a demand that the convention be held in Bismarck as the more centrally located point, but it is evident that the demand has gone unheeded by the Liederbach faction.

Attack Maddock, Walker.

Another bitter attack upon its critics, especially upon "Dad" Walker, Walter J. Maddock and William Lemke, is made in the Courier-News Sunday in which it is declared by P. L. Arrhus that if the trio object to the Langer retraction it is not a closed book, and that by putting up a bond for \$50,000 they can go to bat in court in Richland county in the case. One of the agreements made in the Langer libel suit settlement was that the Courier-News issue a special edition of over 40,000 copies to be sent to league members.

Arrhus says that Walker answered the letter, written Feb. 28, and sent by registered mail, "more in the nature of a lumbering attempt at humor, and showed both lack of good faith and lack of recommendations." Lemke and Maddock did not answer, and Arrhus discloses that Maddock and Walker refused to attend a meeting of the league state executive committee in Fargo last Tuesday.

The letter of Arrhus is given as follows.

Copy of Letter.
"Fargo, N. D., Feb. 2.—To Wm. Lemke, Walter J. Maddock and R. H. Walker:

"In view of the fact that an apparent controversy has arisen over the retraction in the Langer libel suit, I feel that before going any further in the matter I should obtain your judgment on how to proceed."

The stipulation of dismissal and settlement of this suit among other things, call for a full and complete retraction of any and all libels that the Courier-News published concerning Mr. Langer; that said retraction be published in full in the issue of the Courier-News of date January 19, 1922. It further provides that the publication of the retraction shall be supplemented by a further and additional publication thereof in full in a special edition of the said Courier-News to be published some time between now and the first day of March, 1922 for circulation.

DECLARE MONEY FROM EUROPE IS BACKING REVOLT

Capture of Spies and Documents Shows Origin of South African Trouble, Said

GOVERNMENT WINNING

Having Great Success in Putting Down Revolutionists, Communique Says

FIRE AT SMUTS
Johannesburg, S. Africa, Mar. 13.—A bullet fired at Premier Jan Christian Smuts hit his car but he was uninjured.

London, March 13.—(By the Associated Press.)—A dispatch from Johannesburg this afternoon said:

"Through the capture of spies and documents it was learned that the money for the 'red revolution' came from abroad. It is expected that peace will soon be restored."

It is believed in official circles, the message states, that there will continue to be small set-backs such as the loss of isolated posts but as regards the general result little doubt is felt.

Heavy casualties have resulted upon the revolutionaries in addition to the capture of more than 2,500 of them.

Premier Smuts issued a statement today Reuters' Johannesburg correspondent says, declaring that the present revolutionary movement is the work of enemies who are using the strike at the mine for the dissemination of

OVERCOME REVOLUTIONISTS

Pretooria, Union of South Africa, March 13.—(By the Associated Press.)—Government forces are proceeding with great success against the revolutionists, according to an official communique issued which says:

"The total number of prisoners taken in the operations in the central area is 2,200. Our forces occupied but slight casualties, the high ground around West Cliff."

"In the eastern area Major-General Van Deventer's troops forced the revolutionaries to retire to Benoni. In the western area our forces reached Krugerseep (22 miles northwest of Johannesburg) and are now pushing eastward. We have occupied Rietfontein."

HOUSE G. O. P TO STAND PAT ON COMPENSATION

Will Report Out Compromise Bonus Measure in Spite of Opposition

Washington, March 13.—Republican members of the house ways and means committee decided at a conference today to stand pat on their determination to report the compromise soldiers' bonus bill despite objections to its provisions by Secretary Mellon and Comptroller of the Currency Crissinger.

Expressing the view that the measure as now drawn involves "a dangerous abuse of government credit" Secretary Mellon in a letter to Chairman Fordney disapproved the provision for bank loans upon adjusted certificates as "indirect and forced borrowing" by the government. He contended that it is "both dangerous and unwise" to seek to avoid paying the cost of the bonus for the time being.

J. L. KELLY IN SHERIFF RACE

J. L. Kelly today formally announced he would be candidate for the nomination for sheriff in Burleigh county at the June primary. Mr. Kelly, who is a Spanish-war veteran, has lived in Burleigh county for 39 years, formerly was with the Marshall Oil company and is now with the Copelin Motor company. Mr. Kelly is the first candidate to formally place himself in the race for sheriff.

HARDING SOON LEAVES FLORIDA

Fort Pierce, Fla., March 13.—(By the Associated Press.)—President Harding expects to conclude his vacation and leave St. Augustine Friday for Washington, he intimated today to newspaper men.

PLANS TO FLOAT LIQUOR SHIPS OFF NEW YORK AT A COST OF \$10,000,000

New York, March 13.—(By the A. P.) Plans to float no liquor ballast off New York beyond the three mile limit are going forward according to James Martin, promoter. In spite of the announcement of Roy Haynes, federal prohibition commissioner, that the vessel will not be permitted to

FEDERAL GRAND JURY SWORN IN HERE, TAKES UP PROBE OF MANY CHARGES

Judge Miller Instructs Grand Jury and Admonishes Members to Conduct Deliberations According to Rules of Law; District Attorney to Present 70 Cases to Jury

A federal grand jury of 19 members, the first called by Federal Judge Andrew Miller, was impaneled and instructed in federal court this morning. Members of the jury are drawn from various parts of the state.

Judge Miller, in instructing the grand jury of its duty to consider cases presented to it by the United States District attorney, outlined the procedure of the grand jury room, cautioned the members especially as regards secrecy of their deliberations, told them they were empowered to make any investigation necessary and impressed upon the members that they should return an indictment against no person because of malice or leave a case unrepresented, through fear or favor.

A federal grand jury may be composed of not less than 12 nor more than 23 members, and 12 members

must agree when an indictment is returned.

The grand jury, after receiving the detailed instructions from the court and admonition to inquire diligently and carefully into all matters presented to it, retired to the grand jury rooms to begin deliberations. District Attorney M. A. Hildreth said that he had about 70 cases to present to the grand jury for its consideration.

The only civil case to be tried at this term of court, that of Jacob Verbrugh against the Benish Coal Mining company, was being concluded today. Following this will be the trial of a number of criminal cases brought by the government attorneys.

Many attorneys, grand jury witnesses, petit and grand jurors and officials brought the number of persons here because of the federal court term to upwards of 200. The term is expected to continue several days, perhaps two weeks.

WIRELESS CAUSES GHOST STORY

Boston, Mar. 13.—Edward O'Brien, scientist and author, declared that the ghost of Antigone was in reality the product of strong wireless waves between the two great radio stations at Wellsfleet, Mass., and Blake, Nova Scotia. These prevail in the valley at Caledonia Mills where stands the home of Alex McDonald, "home of the ghost," he said, here after a month spent in investigating the matter.

HOPE TO AVOID A COAL STRIKE IS HELD SLIM

Government Preparing for Strike of Miners on April 1, End Efforts

Washington, March 13.—Government officials were represented today as being without hope that the threatened coal strike can be averted or that the proposed conference between the operators and miners would be held.

It was indicated that government intervention at least in the preliminaries of the situation was practically at an end.

Holding that a strike call April 1 is almost inevitable, government officials, according to the view presented today on high authority, now are deeply interested in seeing that a sufficient supply of coal is obtained for the whole country.

Washington, March 13.—The situation with respect to a sufficient supply of coal, it was stated on the same authority, is not acute. There now is at the surface of coal mines and in stocks at consuming points enough coal to last the country for ten weeks with the prospect, it was added, that this supply will be augmented by production from non-union mines and operations in union territory which department of labor reports show are covered by district settlements between the miners and owners.

ARBUCKLE ON THIRD TRIAL

San Francisco, March 13.—The case of Roscoe Arbuckle, charged with manslaughter in connection with the death of Virginia Rappe, motion picture actress, was called today for trial for a third time but a recess was taken until the afternoon session of court because 14 members of the jury of 65 were not on hand. The bailiff was instructed to ascertain why they were absent.

7 KILLED IN TRAIN WRECK

Atlanta, Ga., March 12.—Seven persons were killed and a number of officers injured when an Atlanta Birmingham and Atlantic railroad train plunged 50 feet from a trestle. None of the injured today appeared in danger.

OWL AGLOW AT NIGHT

Foulsham, Enz., March 13.—Several reports having seen a luminous owl which has been lighting up the branch of its roosting tree at night. A similar phenomenal owl was seen 14 years ago by Sir T. Digby Pigott.

THATCHER AND LOFTHUS UNDER FALSITY CHARGE

Warrants for Arrest of Former Examiner and Accountant Are Issued

SCANDINAVIAN BANK DEAL

Charged with Making False Report to the Supreme Court in the Matter

Fargo, March 13.—Warrants were issued here today charging Myron Thatcher, Minneapolis accountant, and O. E. Lofthus, Bismarck, former state bank examiner, with perjury.

The prosecution is founded on an affidavit signed by Messrs. Thatcher and Lofthus and used before the supreme court of North Dakota to obtain re-opening of the Scandinavian-American bank of Fargo in October, 1919, after it had been closed by the banking board.

Arrest of Lofthus and Thatcher will bring the number of persons against whom charges have been filed in connection with investigation into the affairs of the defunct Scandinavian-American Bank of Fargo to four, A. C. Townley, president of the National Nonpartisan League, and J. J. Hastings, former vice president of the bank and former financial secretary of the league, having been charged with embezzlement.

The charge against Lofthus and Thatcher figured in the examination conducted by the 1921 legislature into the state-owned industries and the activities of several league leaders or officials in so-called "league banks" or "league enterprises."

Mr. Thatcher is president of the Equitable Audit company of Minneapolis and was in charge of the audit of the Fargo bank after it first closed.

The report which Lofthus, as bank examiner, and Thatcher, as an accountant, submitted to the supreme court following the "Langer raid" on the Scandinavian-American bank in Fargo in October, 1919, was before the legislative committee of the house. J. W. Brinton, former league leader, testified that he gave a check for \$11,000 to cover a shortage existing in the Scandinavian-American bank through misappropriation of funds for the U. S. Sisal Trust, that he had no funds in the Minneapolis bank on which he drew the check and that Lofthus agreed to hold the check until a date when funds could be placed in the bank. Brinton testified that Lofthus swore to the supreme court that the \$11,000 item had been paid.

The "Langer raid" was made on orders of members of the banking board, controlled by opponents of the league administration. William Langer, then attorney general, investigated its affairs. An examination made for the board, known as the Halderson report, said the bank was insolvent. Lofthus entered the bank and made an examination. The supreme court on the showing made ordered the bank reopened.

Brinton also testified that former Attorney General William Lemke, then acting as attorney in the case, knew that he did not have funds to meet the check he gave. It was during the legislative investigation a year ago that the Scandinavian-American bank finally closed. It is now in the hands of a receiver.

Specific Charges.
The case was instituted by Attorney General Johnson through W. C. Green, state's attorney of Cass county. The affidavit charges:

"That the said Myron Thatcher and O. E. Lofthus did, at said time and place, falsify, corruptly, knowingly, deliberately, unlawfully, willfully, feloniously, and contrary to their oath, and to the oath of each of them, depose and declare and testify in a material matter that which the defendants, and each of them, knew to be false, upon their oath duly taken to the truth of said material matter before N. J. Brevig, a notary public within and for said Cass county, North Dakota, to be used in a proceeding, and which was used therein, and which proceeding was then and at said time, pending before the supreme court of the state of North Dakota, said proceeding being entitled in the said supreme court of the state of North Dakota, as follows:

"The case referred to being that of the state of North Dakota on the relation of the Scandinavian-American bank, O. E. Lofthus, et al. against William Langer, et al.

The affidavit of Thatcher and Lofthus declaring that they had submitted a true and correct report of the condition of the bank is set forth as follows:

Quotation From Affidavit.
The following quotation from the affidavit of Lofthus and Thatcher is given as follows:

"The Sibal Trust loan is shown as outstanding and unpaid in the financial statement that is submitted. These parties have just at the hour that this report is made paid their notes in full \$11,000.00."

The affidavit continues: "That said statement and evidence sworn to by the defendants, and each of them, was false and untrue, and known by them and each of them, to be false and untrue, and was willfully, deliberately knowingly and corruptly sworn to by said defendants, and each of them knowing the same to be false and untrue in this, that the said Sibal Trust loan was not paid by the parties making said loan, or at all."

"That in the said Exhibit 'A' referred to by the defendants, and each of them, was false and untrue, and known by them and each of them, to be false and untrue, and was willfully, deliberately knowingly and corruptly sworn to by said defendants, and each of them knowing the same to be false and untrue in this, that the said Sibal Trust loan was not paid by the parties making said loan, or at all."

(Continued on Page 6)

BURLEIGH CO. CANNOT BUILD MANDAN'S ROAD

Commissioners say they Haven't
Authority to Spend \$10,000
Across the River

ON BRIDGE PROPOSITION

Burleigh county commissioners, in meeting here yesterday afternoon with members of the Morton county board of commissioners, informed the Morton county board that they are without authority to spend between \$90,000 and \$125,000 to aid in constructing a viaduct and road into Mandan from the end of the Missouri river bridge.

The Burleigh county board members stated that they stood by the original agreement, drawn when the bridge project was put through, which provided for a fill and 5 per cent grade on the west side of the river.

The bridge project itself included the bridge structure which now has been virtually completed, including the bridge between the piers and the concrete approaches on each end. There is a separate federal project for a highway from Bismarck to the bridge. There was also a separate agreement for constructing the grade on the west side of the river.

It had been expected by the state highway commission engineers that a temporary fill and roadway would be built on the west side of the river this year, so that the bridge could be in use by June or July. However, the Morton county board now insists that the entire bridge project be re-opened, the territory between the end of the bridge and Mandan be declared a part of the bridge contract and a concrete viaduct built into Mandan. The cost of this has been variously estimated from \$90,000 to \$125,000.

The Burleigh county board, in a meeting here yesterday afternoon, estimated it would cost Burleigh county from \$90,000 to \$125,000 if the county helped build the viaduct on the Mandan side of the river. They are without authority to spend the money in Morton county unless the bridge project is reopened, and decline to reopen it.

The Burleigh county board's view is that a temporary fill can be built on the west side of the river and if Morton county desires a paved road she can make a separate project in which Morton county, the government and the state would participate but in which Burleigh county taxpayers would not participate.

Members of the Mandan Commercial club, in meeting, declared for a reopening of the bridge project and building of a viaduct which would entail Burleigh county participation at a cost of many thousands of dollars.

The answer of the Burleigh county board of contents regarding overflow on the west side of the river is that the end of the concrete approach is now higher than the city of Mandan, and it would be necessary, if the Morton county view is accepted, to build a bridge into Mandan.

ENGINEERS IN DISCUSSION OF ROAD PROBLEMS

Take up Proposed Road Amend-
ments at Their Meeting
Held Last Night

An exhaustive discussion on the proposed constitutional amendment and highway measures of the State Good Roads Association took place last night at the monthly meeting of the North Dakota Chapter of the American Association of Engineers which was held in the Commercial Club Rooms.

The proposed legislation was virtually re-endorsed by the engineers assembled.

Paul Hegdal, Assistant Engineer of the State Highway Commission opened the subject with a description of the road building situation as it exists in the state at present, pointing out the lack of system and effective highway improvement by counties and townships and describing the obstacles and adverse conditions encountered even by the state highway department in the early and comprehensive improvement of the state highways or main traveled roads of the state.

C. A. Haskins, also an Assistant Engineer of the Highway Commission then followed with a discourse on the essential features of the proposed amendment and measures. He emphasized the necessity of the states taking full advantage of federal aid and meeting with the requirements of the federal aid road act. Attention was also called to the results that might be expected to be accomplished by the new legislation.

Various other speakers were called upon to enumerate such objections as they have heard against the new legislation so that an opportunity might be afforded those present to present the proper answers to overcome such objections. The general purpose of discussing and studying these important matters was to acquaint the engineers with the nature and extent of the opposition and, also, with the proper answers to the same, so that when about the state in the near future the engineers might be able to meet all arguments and aid the State Good Roads Association in its campaign for placing on the statute books the necessary legislation to keep North Dakota among the forefront with other states in the matter of road building.

Outside speakers who also participated in the discussion were Geo. Kenison, Secretary of the Commercial Club; O. W. Roberts, Weather Observer; E. M. Diehl of the State Home Building Association and Stanley Shortt, Senior Highway Engineer of the U. S. Bureau of Public Roads, E.

G. Wanner of the State Good Roads Association made extended remarks explaining the objects of the association, describing the essential features and elements of the proposed legislation, etc.

MORE "PEP" IN BUSINESS SAYS AUTO DEALER

"Yes, business is improving every day," said W. E. Lahr of the Lahr Motor Sales Company this morning when interviewed by a Tribune reporter. "The public is showing a great deal of interest in motor cars," said Mr. Lahr; "in fact, we have had more people in our show room and have received more inquiries in the last thirty days than we had in the entire six months previous. Of course, the new price of \$550 on the Overland, \$1,375 on the Willys-Knight, and \$935 on the Nash Four, has undoubtedly had a great deal to do with this renewed interest; and now with prices at rock bottom, the public is beginning to buy."

"I want to say that the Lahr Motor Sales Company is all set, ready for the good business conditions that are sure to obtain during the next few years. While we give our competitors credit for having a worthy product, we feel that the Overland, Nash and Willys-Knight at present prices are excellent values, and our aim is to back up these values with the most satisfactory service. We've always given service a lot of thought, but we are more determined than ever to make our service as near 100 per cent efficient as it is possible to make it. We believe the only way to give the purchaser of a motor car his money's worth, is to back up a good motor car value with good and efficient service."

FAIR RATE ON LIGNITE ASKED

Midland, Continental Discrim-
inates, is Complaint

A conference was held by the board of railroad commissioners today with other state officials and coal and railroad men on complaints made against rates on lignite coal on the Midland Continental Railroad, which runs south from Jamestown. Among the points served on the road are the state insane asylum near Jamestown; Homer, Klotz, Sydney, Millerton, Nortonville, Franklin, Edgeley.

Complaint was made that the present combination rates over the various lines and Midland Continental on lignite coal from western North Dakota mines to these points is unreasonable and unlawfully discriminatory. It was complained that the rate on the Midland Continental from Jamestown south was much greater per mile than the haul over the Northern Pacific.

The state is interested because of the cost of the freight on coal from Jamestown to the state insane hospital a distance of less than three miles. The present rate is alleged to be so high as to force towns on the Midland Continental to use eastern coal rather than western North Dakota lignite.

REAR LIGHTS ON BIKES
Birmingham, Eng., March 11.—The Birmingham watch committee has sent a resolution to the ministry of transport requiring passage of a law requiring rear lights on bicycles. Absence of such lights, members said, caused many accidents.

CUT THIS OUT—IT IS WORTH MONEY.

Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley's Kidney Pills for pains in sides and back; rheumatism, headache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headaches, and sluggish bowels.

Topaz derives its name from Topazos, an island in the Red Sea.

A Word to Ex-Service Men

Now that a National Bonus is being actively discussed it is up to every ex-soldier to keep a tight hold on his discharge papers. Each day they become more valuable.

A Safe Deposit Box in our strong vault costs only \$2 a year. In it you can keep your discharge papers, life insurance policies, deeds and other valuables.

GET A BOX TODAY.

Bismarck Bank
Bismarck, N. D.

LANGER NOT A CANDIDATE

Says in Letter He Stands For
"Original Program"

William Langer, former Attorney General, declares that he is "sick at heart over the whole situation and absolutely do not want any office." A letter from Mr. Langer is printed in the Fargo Courier News, being sent to that paper by a man to whom it was written, in which he advocated Langer's candidacy for the governorship. The letter of Mr. Langer follows:

Bismarck, N. D., Feb. 24, 1922.—Mr. C. MacDonald, Hannah, N. D. Dear Sir: A few days ago I noticed a letter by you in The Courier-News advocating my candidacy for the governorship. While I appreciate the compliment very highly, I want you to know, Mr. MacDonald, that I am sick at heart over the whole situation and absolutely do not want to hold any office.

I was elected Attorney General after building up a splendid reputation for myself in Morton county as prosecuting attorney. As Attorney General, the records if you care to investigate them, will show that I worked unswervingly and faithfully for the common people of the state. When certain influences attacked me I had no newspaper with which to protect myself.

Personally I am entirely willing to let the future determine whether I was honest or dishonest, corrupt or faithful. I took the only recourse that there is in this country, namely, I sued for libel against the chief newspaper that was lying about me. For nearly three years, by every device known, their lawyers kept me from getting the case to trial. I hired three of the best and most expensive lawyers in the state to get the case up before a jury of 12 honest men and when I finally got it, as you know, the paper retracted. There is little question in my mind but that I could have gotten a big verdict at the hands of that jury at Wahpeton, but I had absolutely no desire to ruin the paper owned by the farmers of North Dakota. I was looking purely for a vindication and I got it.

It is somewhat refreshing to see your letter. I have never been an V. A. and I never will be one. The election of Twichell as speaker was as everyone knows accomplished over my objection and after I had put over the best fight I could with the legislators friendly to me and progressive principles.

In this coming campaign I am going to be upon the stump and hope to be able to talk for the original farmers' program because after my experience in the Industrial Commission I am stronger for it today than ever. But my God! what could I do when as the records show for example that I did the best I could to nominate Murphy of Grand Forks to head the Bank of North Dakota, to Frazier and Hagan voting for a man like Jim Waters?

I bear animosity to no one, the people have repeatedly honored me and I hope that my course in the future as in the past will always be for the best interests of the common people. I have no objection to your showing this to anyone or publishing it. It is where I stand and always have stood, but I appreciated your letter and I want you to know it. Yours very truly, WILLIAM LANGER.

REJECTS BIDS ON MAINTENANCE

Burleigh County Board Hasn't
Sufficient Funds

The Burleigh county board of commissioners has rejected all bids submitted for maintenance of three divisions of highways in the county. The Red Trail east of Bismarck, main road to Wilton, and road from Wilton east to the Kidder county line. The bids were rejected, it was stated, because they were higher than had been anticipated and would involve payment of more money than the commissioners are able to pay.

The county treasurer reported today that the county now has on hand

\$217,403.63, as a result of the recent heavy payments of taxes. Most of the taxes on real estate owned by people living outside of Bismarck has been paid, it was said. Some road warrants will be called the first part of April by Treasurer Flow.

Bread and Sugar Still Going Up In Soviet Russia

Moscow, Mar. 11.—Bread prices in Moscow have been rising for three months and there seems to be no limit as it is becoming more and more difficult for bagmen to obtain flour and regular commercial shipments are practically nil.

White bread has been selling lately at 28,000 rubles a Russian pound and black bread at 9,000 rubles. Sugar costs 90,000 rubles for 12 ounces. Meat is 30,000 rubles a Russian pound and butter is 100,000 rubles. Potatoes are the cheapest article of diet in North and Central Russia, selling for 2,300 rubles for 12 ounces.

The legal rate for the ruble is 200,000 to \$1 for January, February and March. Speculators in exchange have been prosecuted so vigorously that curb dealings have been stopped.

JEWELS, BUT NO FOOD
Edmonton, Eng., Mar. 11.—Living in poverty and privation, yet surrounded by jewels and precious stones, a jeweler was summoned before the county court for failing to pay his debts. Sympathetic neighbors are helping him.

PLAGUE OF LETTERS
Paris, March 11.—The inhabitants and police authorities of Tulle have been receiving anonymous letters daily, mostly from Paris and Lyons. The subject of most of them is that if the police will stop their investigations the letters will cease.

England devotes about 40,000 acres to the cultivation of hops.

**24,971 MILES OF FRICTION
IN EVERY 10,000 MILES.**
The piston in any six cylinder motor "travel" more than 24,971 miles in every 10,000 miles of car travel. By piston travel is meant the up and down operation of pistons in any motor car.
It is piston travel which accounts for wear, loss of compression—and increased maintenance and operation costs.
YOU PAY FOR OVERHAULING WHETHER YOU HAVE IT DONE OR NOT; so, why not let us regrade your motor and fit new light-weight pistons and oil-seal piston rings, now, when you have least use for your car?
We do this work at reasonable prices; and, because of our modern machine shop equipment, we do it with precision unexcelled by any motor car building concern. All work guaranteed. Prices for our expert work, no higher than often paid for poorly, slovenly, unintelligent work. Visit our clean, well lighted, thoroughly equipped shop. See how we do it; how we save you money.

MOTOR CARS

More facts you should know

- 1 For the calendar year, January 1, 1921, to January 1, 1922, Buick built and actually sold over 80,000 automobiles.
- 2 These sales for the calendar year 1921 exceeded by over 12,000 cars the sales of any automobile manufacturer having a six-cylinder automobile in its line.
- 3 These sales for this period like-wise represent a volume of business greater by over \$9,000,000 than the sales of any other automobile manufacturer excluding Ford.
- 4 These figures are taken from official reports and are absolutely reliable.

COUNTY SEAT FIGHT RETOLD BY SLOPE MAN

Tells How Dickinson Won
County Seat of Stark County
Many Years Ago

New England, N. D., March 13.—How Dickinson won the selection as county seat of Stark county, is recalled by Judge Fred White of Amdon, well known pioneer of the Slope country. During an exchange of reminiscences here with other old settlers, he said, in commenting on the race for Stark county seat honors:

"This land (Hettinger county) was made a part of Stark county because it was needed to make it appear that Dickinson was more centrally located than Richardson and was otherwise better suited to be the county seat."

The judge said that Mr. H. C. Kooper, who was the owner of the "H" ranch, was working to have the county seat placed at Richardson, where his big company had its headquarters, while "Cap" Hall and "Cap" Saunders were working hard to make Dickinson the choice.

U. S. Aid Sought Then, Too
"The last time in those days also," he remarked, "they asked the government to furnish aid to the farmers by giving them free seed. Saunders and Hall circulated petitions and secured the signatures of many farmers on the application blanks for free seed and at the same time got them to sign the petition for Dickinson for the county seat. They took in a lot of territory to the south to make Dickinson centrally located in the new county."

"When the officials came to make the inspection which would decide which of the towns would be most satisfactory for the county seat, they came first to Richardson and found very little doing."

Dickinson Puts Up Front
"At Dickinson it was different. Hustling politicians had secured the whole south country. Ranchers living in Hettinger county and some from below the South Dakota line were in Dickinson on the appointed day. They were all loading up great stores of goods for their ranches. Saloons and places of business were doing a rushing business. That was Dickinson's first 'baraza' day and it was every bit as successful as the one recently staged by the Town Criers. It had the desired effect. There was no doubt in the minds of the officials which was the best town for the county seat."

SNUFF VENDOR FINED \$500 IN COURT AT MINOT

Minot, N. D., March 13.—Eight defendants who had pleaded guilty or been convicted in county court on various charges, including violation of the cigarette, snuff and liquor laws, were sentenced in county court by Judge William Murray. The penalties for the most part were severe, one of the heaviest being the \$500 fine levied on George Pappaglias for keeping snuff for sale. Judge Murray explained the heavy fine by showing the penal codes which provide that a fine of not less than \$500 and not more than \$1,000 shall be levied upon any person who pleads guilty to or is convicted of violation of this particular statute.

John Scotti was fined \$25 and costs of \$6.20 for keeping cigarettes for sale. I Diamond was fined the same amount for the same offense. Joe Makins was fined \$15 and costs of \$5 or seven days in jail for assault and battery. John Stageris was sentenced to 90 days and fined \$200 and costs of \$100 and in default of payment of costs to serve 10 additional days in jail. Walter McCray, for running a poolhall without a license was fined \$10 and costs of \$5 or seven days in jail. Ralph Hamul was fined \$200 and costs of \$25 and in default of payment of fine and costs to serve 10 days in the county jail, for having intoxicating liquor in his possession.

2 RURAL ROUTES ARE AUTHORIZED

Dickinson, N. D., March 13.—Two rural mail routes running north and south of Dickinson and serving approximately 200 families, have been authorized by the post office department to be established out from the local office on May 1, according to word received by Postmaster W. H. Lennette Thursday. Route No. 1 will extend north and east of the city and will be 30.4 miles in length. Route No. 2 will extend south and east of the city and will be 35 miles in length. For the present at least service over both routes will be tri-weekly. The carrier will leave Dickinson at 8 o'clock on Mondays, Wednesdays and Fridays over Route No. 1 and on Tuesdays, Thursdays and Saturdays will serve the patrons on Route No. 2.

Leaving Dickinson on Route No. 1 the carrier will travel east over the Red Trail to Lehigh, thence north past the William Clark and Peter Stolz farms. The route crosses Green river at the F. W. Peiton farm, thence north to the Dunn county line, west two miles, returning to Dickinson by the John Ridi farm.

SCHOOL DISTRICT MAY BE BONDED

Garrison, N. D., March 13.—The members of the Roosevelt school board have been considering taking up the matter of bonding the district for some time past in order to pay up outstanding warrants and have a little fund on hand for some necessary improvements during the summer. At the last meeting of the board it was decided to ask the consideration of the voters of the district for a \$15,000 bond issue, which it is thought can be disposed of at less than 7 per cent, through the County Superintendent's office. As soon as all arrangements are made the board will circu-

late a petition and with the necessary number of signers will advertise a special election, when the voters may vote to approve the bond issue.

The Roosevelt district is no exception in having an indebtedness, as nearly all districts in the western part of the state have issued bonds for the same purpose. This is due to lack of taxes levied remaining unpaid for various reasons, the lack of funds probably the more prevalent.

TRACK, FIELD MEET PLANNED IN DICKINSON

Dickinson, N. D., March 13.—Athletes from practically every high school in southwestern North Dakota will be entered in the first annual track meet to be held in Dickinson in the early spring if plans now under consideration are carried out according to H. O. Pippin, county superintendent of schools.

Much interest has been shown in the project by superintendents and coaches of schools in surrounding towns and all have expressed a willingness to co-operate and do all in their power to make the event a success. The tentative date for the Slope meet has been fixed at May 20, two weeks before the closing of the school term.

As preliminaries to the Slope meet Superintendent Pippin has planned two county meets, one at Taylor and the other at South Heaith, with May 6 and 10 as the probable dates.

CLUBS CANVASS DICKINSON ON BUDGET SYSTEM

Dickinson, N. D., March 13.—Committees from the Rotary and Town Criers clubs undertook a canvass of the city to learn the sentiment of business and professional men generally toward the proposed budget system that has been planned by both clubs and which they hope to put across for the coming year.

The budget as planned would put into a community chest approximately \$3,500 which would care for all donations and funds needed for public entertainment.

Already many of the business men have expressed themselves as being heartily in favor of the plan which would put all donations on an equitable basis and relieve individuals of the attention of solicitors.

In Mandan, Williston, Minot and other towns of the state where the budget system has been put into effect it has worked to the advantage of all and at the same time provided sufficient funds to put across worthy projects connected with community development.

Should the budget plan be approved and the quota raised, the disbursement of all funds and the merits of all projects for which donations are sought will be found in the hands of a board of governors, consisting of ten representative business and professional men chosen from both clubs.

COUNTRY CLUB OF DICKINSON PLANS SEASON

Dickinson, N. D., March 13.—Plans for an active social season were considered at the annual meeting of the members of the Dickinson Town and Country Club and a board of directors was elected for the coming year. The meeting was well attended.

Reports of standing committees showed that many improvements had been made at the club house and grounds during the past season. Five new tennis courts have been constructed and the golf course has been changed and much improved.

In addition to the social and recreational advantages provided for its members during the year, the club gained an enviable record for hospitality in entertaining the state golf tournament last August.

The following were elected directors: Frank Ray, W. J. Orchard, F. L. Roquette, William Kostelecky, J. W. Sturgeon, Harve Robinson and Mrs. A. P. Nachtwey. The board will hold its first meeting on Monday evening, March 20, when officers will be chosen.

Dues for the coming year were fixed at \$15 plus war tax, while a charge of \$10 will be made to single ladies wishing to become members.

Further improvements will be made on the grounds this spring and arrangements for the entertainment of the state trapshooting tournament in June will go forward as soon as the weather will permit outside work to begin.

60 CARS HAY ARE RECEIVED

Dickinson, N. D., March 13.—Sixty cars of hay consigned to the several towns have been received in Stark county from Minnesota points for distribution to farmers who are in need. The hay was purchased by County Commissioner John J. Loh, who returned Wednesday after a ten day buying trip to Red River Valley points in company with S. J. Callahan, traveling freight agent for the Northern Pacific.

Mr. Loh states that western buyers have scoured western Minnesota in their efforts to secure sufficient feed to carry the livestock of the Slope through until spring and that practically every available pound of hay has now been purchased. It was with difficulty that he secured the 60 cars, he said.

DAIRY HERDS ARE INSPECTED

Beach, N. D., March 13.—So far, the only milkmen who have moved to have their cattle inspected are John Anderson and Henry Thompson, whose herds were inspected by Dr. Fuller. It is understood that the milk next week, after which the law will be in effect on all persons whose cows have not been inspected will be prohibited from selling milk in the city. The authorities call attention to the fact that the ordinance applies to those who sell to but one customer as well as to those who sell to many.

LANDIS WAS POPULAR WITH NEWSPAPERMEN

On Retiring He was Presented
with Testimonial Hand Lettered
Around His Photo

Chicago, March 13.—Newspapermen are supposed to stand by and smile at happenings and people in a cynical manner, according to the popular belief. The men assigned by the Chicago newspapers to cover the federal building "beat," however, were a little bit different in the case of the retirement of Kenesaw M. Landis from the federal bench.

On the famous jurist's last day in court the federal building reporters presented him with the following testimonial hand lettered around his photograph on a large plaque:

"JUDGE LANDIS

"For newspaper men the federal building will not be the same after you have gone. You will take the life of the joint away with you."

"The good opinion of newspaper reporters is seldom sought, perhaps, but few men can say, as you can, that there departure made the press room blue."

"We've known you for a long time, and we'll miss you for a longer time. Not just because there is 'copy' in your forthright way of doing things, but because we think you are an honest-to-God man and a judge with the right kind of backbone."

GOOD LUCK."

It was signed by each of the reporters.

TRAIN HITS BUS; 2 KILLED

Carrington, N. D., March 13.—Charles Balbitch 19, was killed, and Alice Strogies, aged 11, and Zelma Strogies, aged 8, were injured when the inclosed sled in which they were being conveyed to school, was struck by a Soo Line train near Cathay. The driver failed to hear the train whistle.

Rumania Finds It Hard to Make Both Ends Meet

Bucharest, Mar. 13.—Like ever other European government the Rumanian government finds it very difficult to make both ends meet and the order has gone forth that the pruning knife of economy is to be mercilessly applied wherever possible.

Drastic cuts are to take place in all branches of the diplomatic service. The Rumanian Legations in Christiania, Helsinki, Tokyo and Cairo are to be discontinued. The Legation in London is to consist henceforth of a minister and one secretary only.

The staffs of the Rumanian delegations on the League of Nations and the Reparations Commission in Paris, Vienna and Budapest are to be cut down also.

English Golf Professional Coming To Chi.

London, March 13.—Alan Gow, professional to the Banstead Downs golf club, Surrey, who has been appointed to the Edgewater club, Chicago, leaves England on March 14 to take up his new position. He will be accompanied by Forbes Leith his assistant at Banstead Downs. The Surrey professional is the latest addition to the considerable list of British players who have drifted to American links in recent years.

Gow was born at Lochtan, Perthshire, in 1885 and represented Scotland against England in the professional international match at Muirfield in 1912. He was for ten years professional at Gos-Magos, Cambridge, and went to Banstead in 1914, when Wilfred Reid left there for America.

BEACH STORE SOLD

Beach, N. D., March 13.—L. B. Westby has sold the Baker store owned by the Westby corporation to Sam Wilson and a partner, who will continue the business at the old stand. This has obviated the leaving of Beach by Mr. and Mrs. Raymond Noyes, as Mr. Noyes had been scheduled for manager of the Baker store, and their many friends will be glad to know that they are to remain in Beach.

MONASTERY FOR SALE

Canterbury, England, March 13.—The Grey Friars' monastery, said to be the first stronghold of the Franciscan order in England, is up for sale by a realty firm. The monastery was built in the thirteenth century.

PIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

GIRL SWIMMER WILL TOUR

Maria Burke, Ft. Worth, Tex., swimmer, holder of several swimming medals will tour the country this summer with her father, giving swimming and diving exhibitions. Her diving record is 43 feet, the highest available perch at Lake Worth, where she swims.

Siberian Mining Properties Passing Into Private Hands

Riga, Mar. 13.—Siberian mining and industrial properties are rapidly passing into private hands, says a dispatch from the Russian official telegraph agency at Moscow. The Siberian department of the Supreme Economic council reported, that up to December 1, 1921, out of 130 lease agreements signed, 70 were to private concerns.

Three gold "trusts" or working companies wherein a number of mines are to be operated by government agencies conducted along commercial lines, have just been formed in Siberia. Salt and metal "trusts" have also been formed and a number of so-called "autonomous" companies, privately directed, have been created under names long familiar on European stock exchanges.

NATIVES INSULT POLICE

Allahabad, India, March 13.—Police to the Bihar government their inability to cope with the natives in the Muzarnapur district. Magistrates and police officials are insulted in open court, the report reads.

CITY NEWS

Baby Girl.

Mr. and Mrs. G. Lader of Eureka, S. D., announce the arrival of a baby girl at the Bismarck hospital.

Returns to Home.

Mrs. E. H. L. Vesperman, who has been confined to the St. Alexis hospital, has returned to her home.

Faith in Bismarck.

Evidencing faith in Bismarck's future, L. De Liguori has purchased a third piece of property in the city in less than a year. He has obtained Avenue A property, which he may develop this year, the property being purchased through the F. E. Hedden agency.

Bismarck Hospital News.

Alma Harper of Glen Ullin, Mrs. W. W. Mandigo of Bradstock, C. E. Crum of McKenzie, Mrs. G. H. Russ, of the city, Chas. David of Froid, Mont.; Isaac Marcovitz of Regan, and Mrs. Henry Kusler of Hazen, have entered the Bismarck hospital for treatment. Peter Weber of Napoleon, Mont.; Charles Hazelton of Wibaux, Mont.; and Reinhold Flegel of Kulm, who have been patients at the hospital returned to their homes today.

Funeral Services Tomorrow.

The funeral services for Leonard B. Brauer, Jr., the little son of Mr. and Mrs. L. B. Brauer of West Ross street, will be held from Webb's undertaking parlors at 10:30 o'clock tomorrow morning. Interment will be in St. Mary's cemetery. The baby's grandparents, Mr. and Mrs. C. M. Yonman of Wabek, N. D., and Mrs. M. F. Brauer of Kulm, N. D., have arrived in the city for the funeral tomorrow.

Attend Church in Body.

Members of the North Dakota chapter of engineers attended the First Presbyterian church in a body last night. Rev. H. C. Postlethwaite, pastor, addressed the society Friday night at their meeting on "Engineering in the Bible," his talk being exceptionally interesting to the engineers. As a compliment the organization attended the church in a body.

Carpenters Cut Scale.

H. J. Stroelke, president of local union No. 2059, Brotherhood of Carpenters and Joiners announced today the union had voted to cut the Bismarck scale from 90 cents to 80 cents, effective April. The scale had been fixed for the year at 90 cents.

Hold Examination

On Saturday, March 18 at 9 o'clock an open competitive examination under the rules of the United States Civil Service Commission will be held for the position of clerk (male and female) and carrier in the Bismarck postoffice. Applications for this examination must be made on the pre-chances.

Old Shoes Made to Look Like New

We have opened an up-to-date Shoe Repair Shop on Fifth Street, opposite Annex Hotel Building.

Our workmanship is first-class and our prices are reasonable.

Open evenings until 7:30.

Give us a trial.

Tilsner's Shoe Repair Shop
208 Fifth Street

scribed form, which, with the necessary instructions, may be obtained from the Commission's local representative F. D. Cordner, secretary of the Civil Service board or from J. M. Shoemaker of St. Paul, Minn.

N. P. Says Business Thermometer Rising

The business thermometer is rising in the Northwest. Conditions are better than a year ago.

The Northern Pacific today announced a significant increase in freight movements during the month of February. Records compiled by the Statistical Department of the company, and received here today by W. A. McDonald, local agent, show that in February of last year 49,207 loaded freight cars were handled by the Northern Pacific and this February, 55,571, an increase of 6,364.

Figures for other years show movements in February of the following number of cars:

1918	63,412
1919	52,971
1920	74,018

The increase in business for February, 1922, is largely attributed to movements in coal and logs.

WANTED TO RENT—Four or five-room modern house, furnished or unfurnished, or partly furnished; references. Write 356, care Tribune.

ROOM FOR RENT—in modern house, two blocks from Business College, 703 Front street, Corner of Seventh Street.

NOTICE OF SPECIAL MEETING OF THE HANSON-HALIDAY COMPANY, A CORPORATION

Notice is hereby given to all stockholders of this Company that a special meeting of the stockholders of this Company will be held at the office of the Company at Baldwin, in Burleigh county, North Dakota, on the 25th day of March, A. D. 1922, at the hour of 10 o'clock in the A. M. of that day, and that the meeting is called for the purpose of considering the question of selling and disposing of the business as a whole, and to do such other business as should have been transacted at the regular annual meeting in January, 1922, and such annual meeting there was no quorum present.

Given under my hand this 10th day of March, A. D. 1922.

O. H. LERUM, President.

PUBLIC HOUSES IN LONDON TO CLOSE EARLIER

Opponents Claim, However, That
Disastrous Results Will
Follow New Order

LIBERTY INTERFERED WITH

London, Mar. 13.—Governmental restrictions are blamed in part for the business depression in London in a letter which the Imperial Commercial Association has sent to the liquor licensing justices. Its signers predict that disastrous results will follow the closing of public houses at 10 o'clock as foreshadowed.

The letter is signed by Baron Inchcape, one of the leading shipping men of Great Britain; Baron Swaythling, banker; Baron Ritchie, vice-chairman of the Port of London Authority; Lord Balfour of Burleigh, former Parliamentary Secretary of the Board of Trade; Baron Ashfield, managing director of the under-ground railways; Baron Faringham, chairman of the Great Central Railway; Viscount Devonport, chairman of the Port of London Authority and former food controller, and Sir J. P. Hewett.

They asserted that "it is probable that never in the history of this country has the liberty of the individual been more subject to rigorous limitations than at present."

"London has flourished and become famous largely because of the attractive features which it has presented to the travelling public, but the ever-tightening grip of control is changing all this."

The Association contends that much of the blame for the present unhappy condition of trade and commerce "must be apportioned to the restrictions and limitations imposed upon business and individuals by authorities."

The writers assert that these restrictions result in the establishment of an arbitrary and bureaucratic authority, and the limitation of the right of the citizen to conduct himself with that freedom which is an essential part of the character of a free citizen.

OVER-SUPPLY OF DOCTORS IN THE CITIES

They Will Not Locate in Rural
Districts Where Reasonable
Income Cannot be Earned

Chicago, March 13.—The scarcity of physicians in the rural districts of some states is not due to any shortage in the supply of available doctors, but to economic conditions, according to a survey made by the Journal of the American Medical Association.

Complaint was recently made in Pennsylvania that there was a serious shortage in the number of doctors in the state. The Journal found the shortage offset by an oversupply in the cities. Pennsylvania has one doctor for every 768 people, as compared to one physician for every 726 persons in the country as a whole.

Doctors, says the Journal's report, will not locate in rural districts where they can not earn a reasonable income, or where living conditions are poor.

"It is quite clear," the Journal says, "that the only way by which physicians can be induced to locate in rural districts is to make those districts more attractive places in which to live, from the professional, social and economic points of view."

FRENCHMAN PRAISES OUR ARCHITECTS

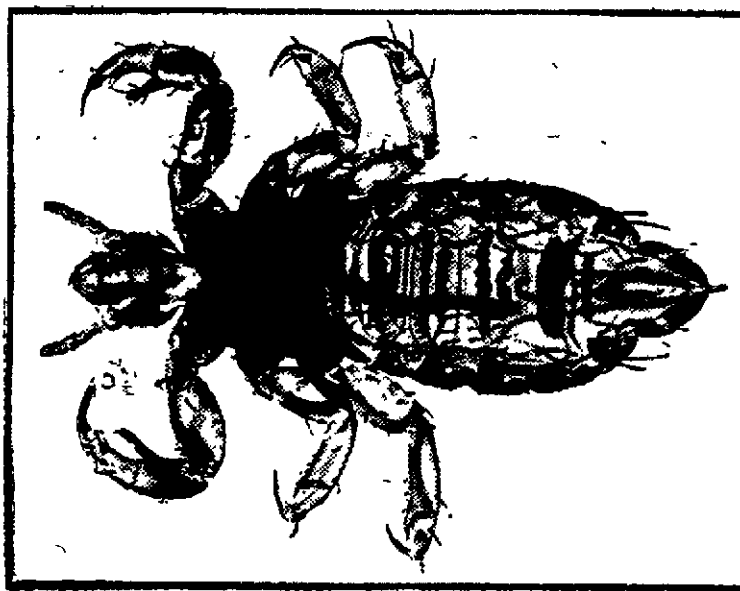

Mourns the Fact That French
Do Not Know The Names of
N. Y. Decorators, Architects

Paris, March 11.—The praises of American architects, whose work he describes as a "new art in the truest sense of the word," are sung by George Wybo, a young French architect, in the columns of the *Illustration*.

The old skyscrapers of New York, he says, "are not always the happiest examples of architectural conception," but the newer office buildings erected within the last ten or fifteen years are described as "immaculate in execution, well proportioned, possessing harmonious lines, with decorative elements of sober taste, constructed of splendid materials finely fashioned."

The sight of these buildings causes the Frenchman to recognize the existence of a new art in the truest sense of the word, an art capable of making us feel strong emotions similar

COOTIES' GREATEST FOE FINDS NEW WAY TO DESTROY 'EM

Photograph of a Cootie, greatly enlarged.

By NEA Service

San Mateo, Cal., March 13.—Ex-doughboys, let's give three cheers for one of the greatest heroes of the world war!

He's Dr. Dwight Pierce, who lives here.

He didn't capture a machine-gun nest single-handed or run with dispatches under shell fire.

But he invented a method of exterminating cooties that doesn't cause your uniform to shrink so it looks as if it had been made for your kid brother.

He's just completed a book on "Sanitary Entomology," devoted to cooties and cooties' kindred.

Pierce, an entomologist, was employed by the government during the

war to investigate disease-carrying vermin.

More Dangerous Than Gas
He says the cootie was more dangerous than lethal gas or high-explosive bombs. Because cooties carried typhus and trench fever.

When Pierce had to have a human subject to experiment on in finding a delousing method, an aged man, with a son in the army, submitted himself.

The subject had to undergo frightful pain, but he bore it stoically, thinking he would make life easier for his son overseas and his son's comrades.

The experiments resulted in a method of dry cleaning that kills the cooties but saves the uniform.

Again, buddies, three cheers for the cootie fighter!

to those awakened within us by the power and splendor of our cathedrals and certain monuments of the past in Europe.

Referring to the "tremendous temples of commerce," M. Wybo says, "all these buildings are different from one another, but each in its own style, in its construction, form and architectural lines is undeniably a masterpiece."

"It is regrettable that we French, so ready to welcome decadent art, do not even know the names of the decorators, sculptors and architects of modern New York. All these artists, working with intelligence and method, have progressively freed themselves from worn out conventions and, discarding simple elements of decoration, have succeeded rapidly in laying down the rules of an art of which we are seeing now only the early manifestations and which, to our honor, is a direct emanation of our own French styles."

KRUPP WORKS PLAN REJECTED BY UNION LABOR

Labor Leaders Believed Participation in Management of Plant
Would Be Detrimental

Essen, Germany, March 13.—Union labor has rejected a plan proposed by the Krupp works, under which workmen were to have purchased a special issue of stock with their savings, and were to receive certain administrative

privileges, looking toward cooperative management of the plants, according to the Krupp announcement.

The resolution in which the plan was rejected by the Krupp shop soviet declares that the Krupp management intended to "unload" stock on the workmen, and by creating "capitalists" among the laborers destroy the solidarity of the working classes.

The labor leaders believed participation in the management of the plants, as stock owners, could in no manner lead to better economic relations with employers, and would endanger the status of the manual laborer in relation to the "brain-workers."

Radical, Socialist and labor newspapers give the Krupp firm credit for an attempt to alleviate the "social problem" by promotion of a big family of employees and employers but, nevertheless, generally approve the action of the Essen labor unions and express the hope that German labor will stand together against any "schemes to capitalize the working men and women, or destroy their class solidarity."

FINE MEETINGS IN GOLDEN VALLEY

Beach, N. D., March 13.—County Agent Russell and Director Haw of the A. C. held very successful meetings at various points in the county last week in behalf of diversification week. While the attendance has not been large those present evinced a lively interest in the subject and the two gentlemen feel that the movement has received a decided impetus and that as fast as they can get to it the farmers will cease exclusive small grain farming in favor of milk cattle and feed stuffs.

CASCARETS 10¢

For Constipated Bowels, Sick Headache,
Sour Stomach, Bilious Liver

The nicest cathartic-laxative in the world to physic your liver and bowels when you have Dizzy Headache, Colds, Biliousness, Indigestion, or Upset. Acid Stomach is candy-like "Cascarets" One or two tonight will empty your bowels completely by morning, and you will feel splendid. They work while you sleep. "Cascarets" never silt you up or gripe like Salts, Pills, Calomel, or Oil and cost only ten cents a box. Children love Cascarets too.

RUSSIA SHORT ON STOCK IN REGULAR SIZES

Artificial Hair, Perfumes and
Toilet Articles, However,
Are Plentiful

BEAUTY PARLORS THRIVE

Moscow, March 13.—Russian markets lack nearly every sort of manufactured article the world can afford, unless it be artificial hair, perfumes and toilet articles. The beauty parlors seem to have adequate supplies and are doing a thriving business.

The man who loses a collar button in Moscow is ruined. It is a tragedy when collars and shirts wear out. The odds and ends in the shops are chiefly the sizes for very small boys and giants. The neckties are patterns which German dealers couldn't sell at home.

Shopkeepers put everything attractive they have in their windows. Inquiry within always demonstrates that they have no stock in regular sizes.

Government taxes on merchants are mounting daily and the merchants pile the tax on their prices. Small notion shops on side streets in Moscow are charged 60,000,000 paper rubles a year for their licenses, which at the government rate is 600 gold rubles, or about \$300.

The news that Russia had been invited to participate in the Genoa conference came as a great relief to merchants who are having great difficulty in acquiring new stock. One merchant who formerly had a great dry goods store in Moscow and is now running a combination shop where both old and new clothing and household effects are sold made the prediction, upon hearing of the Genoa invitation, that three months after Russia receives foreign credit it will be one of the best places in the world for merchants.

"We haven't any goods. We can't get stocks," he exclaimed, pointing to his odd assortment of wearing apparel and job lots of notions. "There are plenty of customers in Russia. All we need is stocks."

MOTHERS AND DAUGHTERS AS CLASSMATES

Mrs. Brecht and Three Girls Are
All Studying Dairy and
Animal Husbandry

Lincoln, Neb., March 13.—Seven Nebraska mothers, carrying from four to ten credit hours, have become the schoolmates of their daughters at the University of Nebraska. In the case of two of the mothers it is the realization of a girlhood ambition to attend college. The others are enrolled for individual purposes, one to learn American ideals, another to study modern student life, and still another to theorize.

Mrs. U. C. Brecht is the mother of three children, all girls, and now her classmates. The entire family is studying dairy and animal husbandry. Daughter Emma and her mother, Mrs. Emma J. Koesch, frequently are mistaken for sisters in university circles. Mrs. Koesch is a sophomore, and besides, has two step-granddaughters in Colner university. Art, rennaissance history and economics are found on Mrs. Koesch's card.

Mrs. Frederica Lau received her higher education in a German institution. So she entered the university with her two daughters to "be with Americans and learn their ideals."

Philosophy, art, history, federal administration, economics, business administration and kindred subjects draw the mothers of four other students to the university. Two of these

mothers report it "rather hard to get back into the swing of school work—there is so much to unlearn that we learned before." These mothers report a change in theories—but to their liking.

These seven mothers are regularly enrolled students.

New Zealanders Like British Machinery Best

Wellington, New Zealand, Mar. 11.—The New Zealand government has just shown its preference for British machinery by rejecting an American bid for a hydro-electric machinery contract and awarding it to a British firm, although the Americans offered the machinery for 14,000 pounds less than their British competitors.

Premier Massey was questioned about the contract in the House of Representatives and said in reply

that the government loss would be reduced by the preference tariff in favor of British goods to 7,000 pounds. He added that the cabinet had decided to take British machinery manufactured by British workmen.

This is the first of a series of contracts to be awarded for the installation of extensive hydro-electric works in New Zealand.

McGRATH MAKES A GOOD RECORD

O. McGrath, chief game warden of the second district, who has charge of the enforcement of the game and fish laws in the south 32 counties of this state has made a record that is a great credit to him as well as the game and fish board.

He has reduced the violations over 50 per cent. He went to the sportsmen in most every town in his district and told them that he was going to enforce the Game and Fish Laws

The Greatest Automobile Value in America

Overland

\$550

Down to a New Fame-Making Price

History repeats! The same Overland that has won the enthusiasm of scores of thousands, today at its new low price is winning thousands of new owners.

Responsive, powerful, faithful, enduring—its freedom from trouble keeps down upkeep.

The perfection of its motor design, combined with its light weight, gives a gasoline mileage no other car can claim.

Its 130-inch spring suspension, unique to this car, gives it an easy comfort on any road which you look for only in heavy, higher priced cars.

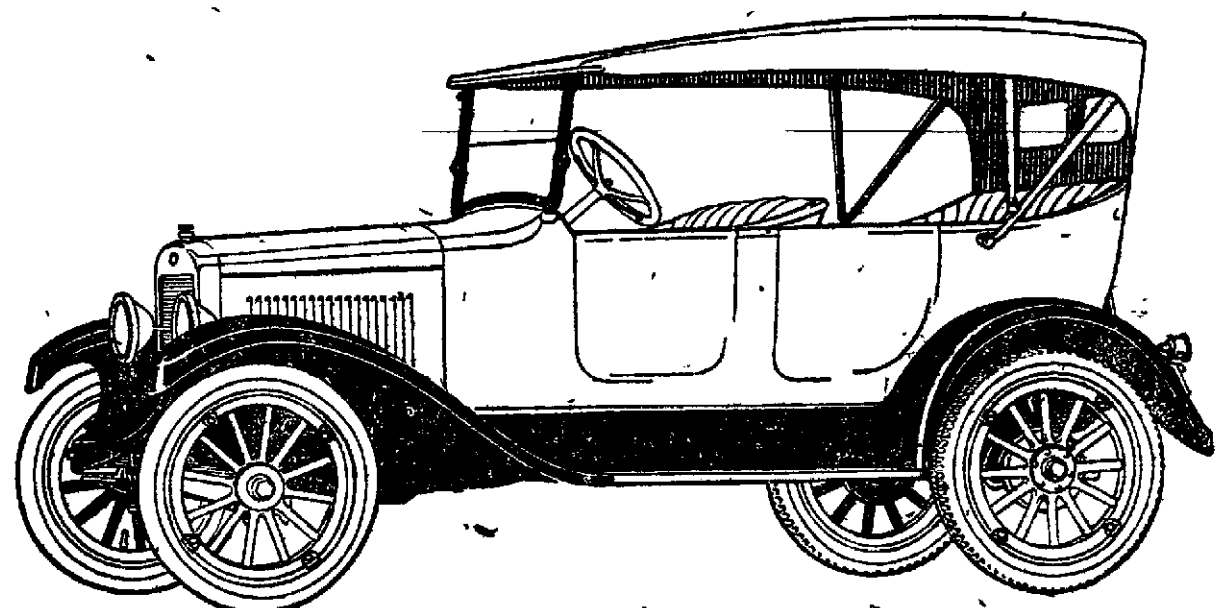

Overland, Always a Good Investment, Now Is the Greatest Automobile Value in America

The all-steel body lasts years longer than other motor car bodies of equal weight. The baked enamel finish outlasts that of any other car near the price. The twenty-seven brake horsepower motor is equipped with Auto-Lite electric starter.

Its high quality equipment includes Timken roller bearings, New Departure ball bearings, Mather vanadium steel springs, Stewart-Warner speedometer, U. S. L. battery, three-speed and reverse transmission, electric horn and lights, real one-man top, demountable rims, tire carrier.

"Pape's Cold Compound" is Quickest Relief Known

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a cold and ends all gripe misery. The first dose opens clogged-up nostrils and air passages of head; stops

nose running; relieves headache, dullness, feverishness, sneezing. "Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance. Tastes nice. Contains no quinine. Insist upon Pape's.

Social and Personal

MANY BISMARCK LADIES ATTEND THIRD MEETING

A number of members of the Minneshosha chapter of the Daughters of the American Revolution will go to Fargo for the third annual conference of the North Dakota Chapters of the Daughters of the American Revolution, which will be held there on Wednesday and Thursday, March 15 and 16. It is expected that delegates from Mandan, Valley City, Jamestown and Grand Forks will also be present for the meeting.

At 6:30 Wednesday evening the members of Dacotah chapter of Fargo will be hostesses at a dinner at the club complimentary to the visiting delegates and to the members of Lake Agassiz chapter of Moorhead. There will be a short program of addresses and of musical numbers and readings. The meeting Wednesday evening will be the only social meeting of the conference.

The business session will open at 9 o'clock Thursday morning. Bismarck ladies whose names appear on the program for the meetings are Mesdames E. A. Thorberg, D. T. Owens, F. J. Grady, J. M. Martin, C. W. McGray and William Langer.

RETURN FROM VISIT

Mr. and Mrs. W. E. Parsons have returned from Wing, Arena and vicinity where they visited schools the latter part of the week. Mr. and Mrs. Parsons report that Frank Lambert and Mrs. Williamson, both of Arena, are very ill at their homes with flu-pneumonia. Edith M. Lambert and Mrs. Williamson have many friends in Bismarck who will regret to learn of their serious illness.

WILL GIVE CARD PARTY

The committee in charge will give a card party at the Business and Professional Women's club tomorrow evening at 8 o'clock. Mrs. Alfred Zuger is chairman of the committee in charge of the affair. Assisting Mrs. Zuger are Mrs. Oboert Olson, Mrs. A. P. Lohr, Miss Mary Buchholz and Miss Clara Schroeder. Every member is asked to be present.

LEAVES FOR MILWAUKEE

Albert Hass, of Mason City, Iowa, supreme president of the Modern Brotherhood of America lodge, who came to Bismarck to attend the special meeting, left this morning for Milwaukee, Wis., where he will visit the lodge. Mr. Hass will stop at Jamestown for the meeting there tonight. This is the last meeting to be held in the state.

LEAVES FOR THE EAST

Mrs. Henry Waldo Coe, who has been visiting at the home of her sister, Mrs. G. A. Rawlings left for the east yesterday. The last of a series of delightful functions were given in honor of Mrs. Coe on Saturday evening when a six course progressive dinner was given with Mrs. Coe as the honor guest.

COMMUNITY CHORUS MEETS

The Bismarck Community chorus will meet at the Business and Professional Women's club rooms at 7:30 o'clock this evening. This is the first of a series of six rehearsals which will be concluded with a post Lenten concert and it is earnestly hoped that all members will attend each rehearsal.

GIVE MILITARY BALL

The members of the S. S. and Bladé fraternity of the Fargo Agricultural College will entertain at the annual military ball in the North Dakota Agricultural college armory on Friday evening, March 17. Full military dress will be the order of the evening.

MOTHERS CLUB MEETS

The Mothers' Social Club will meet with Mrs. Frayne Baker at her home, 206 West Thayer street, tomorrow afternoon instead of with Mrs. Stanton as is given on the program. An interesting program on music has been arranged for this meeting.

RETURNS FROM TRIP

Dr. F. R. Smyth has returned from Minn. N. D., where he has been doing work in the interest of the United States Public Health Service. Dr. Smyth also stopped at Surrey and addressed a Father and Sons banquet there.

RETURNS TO BISMARCK

Miss Mabel Carroll, who has been a guest at the home of Mr. and Mrs. Thomas Conroy of Mandan, for the past week, returned to Bismarck this morning and has resumed her work at the Maynard Music store.

WEEK END HERE

Mrs. Harriet Barnes of Washburn, N. D., returned to her home this morning after spending the week end with her son and daughter-in-law, Mr. and Mrs. Frank Barnes of 806 Avenue B.

VISITS HOME OF SON

Mrs. M. F. Brauer of Kulm, N. D., arrived in the city this afternoon to attend the funeral of the little son of Mr. and Mrs. L. B. Brauer which will be held at 10:30 tomorrow morning.

WIVES OF FIRM ARE GUESTS

Mrs. C. H. Schorge of 517 Sixth street entertained the wives of the doctors of the Quain and Ramstad clinic at her home on Saturday afternoon from 3:30 o'clock until 5 o'clock.

RETURNS TO FARGO

M. B. Anderson, who came to Bismarck to attend the special meeting of the Modern Brotherhood of America lodge last week, returned to his home at Fargo this morning.

HERE FROM WILTON

Mr. and Mrs. Neils Nelson of Wilton, N. D., are in the city for a several days visit.

VISITING HERE

M. F. Parker, teacher of Baldwin, was a visitor in the city Saturday.

FORMER RESIDENT HERE

Henry J. Davis, a former resident of Bismarck, who is now in the Feder-

OLD-FASHIONED TOUCH

BY MARIAN HALE.

New York, March 13.—There's the least bit of a hint of the old-fashioned poke bonnet about some of the summer hats which are now being shown. This Idare hat, a very modern version of the mode, tilts slightly up

toward the center of the very wide brim, giving an air of sweet quaintness to the chapeau.

Patent leather foliage banks the crown in a shiny circle and forms a lustrous background for colorful fruits and flowers.

CORN DISHES

Sister Mary Suggests Several That Are Easy To Make

(Sister Mary's Kitchen.)

Many an attractive luncheon dish can be made from a can of corn. If eggs are an ingredient the dish will be of great food value. Plain stewed corn does very well to serve with dinner but for luncheon a made dish is preferable.

Scalloped Corn

One small green pepper, 2 tablespoons butter, 1-2 small onion, 2 tablespoons flour, 1 teaspoon salt, 1-2 teaspoon paprika, 1-4 teaspoon mustard, 1-2 cup sweet milk, 1 cup canned corn, 1 egg (yolk), buttered crumbs. Melt butter and add pepper cut in tiny strips. Add onion minced and cook five minutes, stirring constantly to prevent browning. Add flour, until perfectly blended. Add slowly salt, paprika and mustard and stir milk. Bring to boiling point and add corn and yolk of egg well beaten. Mix well and turn into a buttered baking dish. Cover with buttered crumbs and bake in a hot oven until brown.

Corn Custard

One cup canned corn, 1-2 teaspoon sugar, 1-2 teaspoon paprika, 1 teaspoon salt, 3 eggs, 2 tablespoons melted butter, 1-2 cups hot milk. Add salt, sugar, paprika and melted butter to corn. In melting butter care should be taken that the butter does not bubble. Add eggs slightly beaten and hot milk. If the corn is very solid add two cups milk. Mix lightly and turn into a buttered baking dish. Bake about 45 minutes in a moderate oven. The custard should be firm to the touch when done.

Corn Puff

One can corn, 4 eggs, 1 tablespoon flour, 1-2 cup milk, 1 teaspoon sugar, 1 tablespoon butter, 1 teaspoon salt, 1-4 teaspoon pepper. Beat whites and yolks of eggs separately, yolks till thick and lemon colored and whites till stiff and dry. Add flour, butter, salt, sugar, pepper, milk and yolks of eggs to corn. Fold in whites and turn into a buttered baking dish. Bake half an hour in a moderate oven.

A very good luncheon dish is made by combining corn, canned tomatoes, one sweet green pepper and one-half an onion with coarse buttered crumbs. Cover each layer of vegetables with crumbs and bake in a moderate oven until the crumbs are brown. This is an excellent way to use up leftovers, but it should be remembered that no great amount of nourishment is provided. (Copyright, 1922, NEA Service)

School Notes

Miss Ann Mullaney was called to her home in Dickinson on business Thursday afternoon.

Miss Gertrude Bergan, principal of the Wachter school, who has been ill a few days, was able to resume her work yesterday.

Miss Jean Campbell, secretary to the superintendent, is confined to her home.

Miss Olive Kinsella, who has been ill for some time, has resumed her work again.

Mrs. C. A. Marr is substituting for Miss Martha Becker in the Junior high school.

The Misses Cecelia Cullen, Maria McGrath, Beatta Jacobson, Sarah Morris, and Mrs. Grace Inseth have recently received Palmer diplomas.

Miss Teichmann, who begins her work Monday as school nurse, is in the city conferring with Miss Edna Gaither whose work as Red Cross nurse is completed Friday.

Miss Eura Johnson is substituting in the Will school.

The collection taken up in the high school for the Jewish relief fund amounted to \$25.

Much interest has been taken in the high school girls' inter-class basketball tournament which has been held at the high school the past week. The final game of the tournament will be played on Tuesday.

In the first game of the meet the Senior class won from the Sophomores. The score was 16 to 5. The Junior girls defeated the Freshmen girls in a close game, the score being 22 to 22.

Last night the Seniors won from the Juniors and the Freshmen defeated the Sophomores. Tuesday night's games will determine the winners. Tuesday night the Freshmen will play the Seniors and the Sophomores will play the Juniors. The name of the winning team will be engraved on the silver loving cup.

The line-up follows:

Seniors—Juri rs—

Mabel Nathan... F B Register capt.

Eloise McKee capt F... Inez Gish

Esther Larson... Ethel Pollard

Mabel Rigler... RC... Esther Katz

Arlene Johnson... Lillian Rigler

Household Hints

STUFFING.

Potatoes can be used for stuffing for fowl and fish instead of bread crumbs.

CLEAN THEM.

Tooth brushes should often be dipped into boiling water to disinfect them.

DRIVING NAILS.

Before driving nails into the walls dip them into hot water and they will not break the plaster.

ELIMINATE SMOKE.

To prevent oil stove wicks from smoking, soak them in vinegar and dry them thoroughly before using.

SILVER.

Silver has ousted gold as a background for handsome laces and a surface on which fancy girdles are built.

SMART TIES.

Quite the newest and smartest tie for the college or high school girl to wear with her tailored blouse is a man's four-in-hand.

BLUEBERRY STAIN.

To remove a blueberry stain put the cloth over a bowl, pour boiling water over the stain and let remain until dry. The stain will disappear.

FRUITS.

Fruits, in bunches, are being used on hats shown for spring. Occasionally one sees grapes, vivid tangerines and small peaches, all trimming the same hat.

FANCY BELTS.

Mother of pearl and steel are running about even in the choice of mediums for fancy belt and girdle effects. Occasionally on the very smart tailored suits one finds a plain leather belt, quite similar to those worn some 50 years ago.

RENEWING CURTAINS.

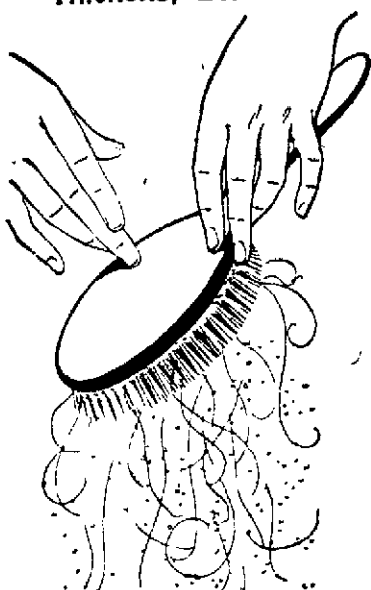

If the cretonne curtains are faded after being washed from them and while they are still warm go over the designs with wax crayons, lightly where the color was delicate and using more color where it was deeper. Then using a paper over them, iron them once more. The effect is quite new.

LAUNDRY BAG.

A very useful laundry bag can be made with two pieces of cretonne. One piece of fabric should be about ten inches longer than the other. They should be seamed together at

DANDERINE

Stops Hair Coming Out: Thickens, Beautifies.

35-cents buys a bottle of "Danderine" at any drug store. After one application of this delightful tonic you cannot find a particle of dandruff or a falling hair. Besides, every hair shows new life, vigor, brightness, more color and abundance.

MRS. O. H. LUMRY, OF GARRISON, PASSES AWAY

Garrison, N. D., March 13.—Mrs. O. H. Lumry, well known resident of Garrison, was buried at Rock Valley, Ia., her former home, Thursday, the body being taken there from Minneapolis, where she succumbed in a hospital following an operation. Mrs. Lumry passed away Sunday afternoon.

Mr. Lumry was not with his wife at the time of her death, as he had gone to Stanford, Montana, to visit his daughter.

Rev. Winslow, former pastor here, now living in Minneapolis, notified Mr. Lumry, and he left Montana at once. Mrs. Lumry had lived in Garrison the last 13 years, having come here as a teacher in the public school.

During the first years here she made the acquaintance of Mr. Lumry, which culminated in their marriage. Mrs. Lumry has continued to teach school the greater part of the time up to the last couple of years.

She was a member of the Garrison Congregational church, taking an active part in all church work, especially in Sunday school as teacher of a class of girls. Also a member of the Tuesday Improvement club in all of which she was highly esteemed.

Mrs. Lumry having been in ill health the past months, left here about Feb. 1st going to Enderlin, where treatments were taken for a time and later went to Minneapolis, where she departed this life.

Mr. Lumry and relatives of the deceased have the sympathy of a large circle of friends of this entire community in their sad bereavement. Worth Lumry of Bismarck, was a stepson of the deceased.

"Give Me Two If It's Shredded Wheat"

Of course he wants two Biscuits—some boys will eat five or six at a sitting and then ask for more—it is so deliciously satisfying and strengthening.

Shredded Wheat

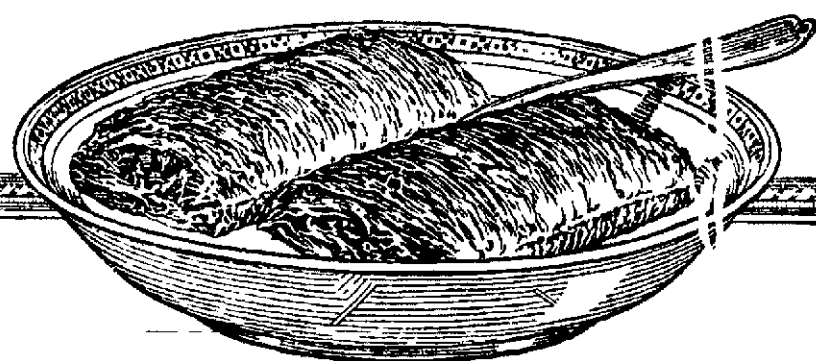

is better than mushy porridges because the tasty crispness of the baked wheat encourages thorough chewing which develops sound teeth. Give the youngsters all they want. It is a real whole wheat food and is ready-cooked and ready-to-eat. So easy to prepare a delicious, nourishing meal in a few minutes.

For a warm, nourishing meal heat two Biscuits in the oven to restore their crispness; pour hot milk over them, adding a little cream and a dash of salt. Delicious with sliced bananas, prunes, raisins or canned fruits.

TRISCUIT is the Shredded Wheat cracker—a real whole wheat toast—and is eaten with butter or soft cheese.

Send two-cent stamp for copy of our new book, "The Happy Way to Health," which tells how to keep healthy and strong and how to prevent many ailments and diseases by eating the right kind of food.

THE STATE'S OLDEST NEWSPAPER.

(Established 1878)

REPUBLICANS SHOULD UNITE

It is probably necessary under existing conditions for all Republicans who believe in the ideals of American government as reflected by the national Republican administration to get together and seek a way out of the present crisis that confronts the state.

The I. V. A. by the very nature of its structure cannot participate in the selection of candidates for United States senator, although that body has sought by innuendo, suggestion, and manipulation to dictate to both Republican and Democrats who the nominees shall be.

It devolves then upon some party official in power to call Republicans together in an effort to compose their differences and to secure a ticket that will be victorious. If that cannot be done, then there will be as many tickets in the field as there are factions and it takes little imagination under the primary system to know what will happen.

Senator McCumber on the strength of his record is entitled to a ticket backed by the solid support of Republicans. There is every evidence, however, of a drive against Senator McCumber by the men who control the I. V. A. organization.

The most radical of these are saying openly:

"We will defeat him with a Republican if possible, but failing at the primaries, we will wheel in line behind a Democrat in November and see if that plan of attack will work." Anything to defeat McCumber is the cry of some of the Mugwump leaders.

Those interested in harmonizing factions in the Republican party should give such party feudists short shrift. Many of them are clamoring for the I. V. A. convention at Jamestown which of course McCumber's friends regard naturally with considerable distrust.

Former Senator Gronna wants the nomination from the I. V. A. organization and at this writing seems the most powerful contender for that distinction. He is working as hard for the I. V. A. endorsement as he did for the Nonpartisan endorsement when he was persona grata with Townley and Lemke.

But as Republicans these factional differences should be composed in the interest of party success. There is only one man who can call a conference in the present exigency and that is Gunder Olson of Fargo, Republican national committeeman.

It is not possible to get action through the Republican state central committee chairman as he is a nonpartisan leaguer. If it were not for that fact, he would be the logical man to call a conference of Republicans to talk over party matters.

On the other hand is Burrell Spalding, and the Tribune has no quarrel with him, but he is as unacceptable to a large body of Republicans as the Republican chairman selected under the election laws who happens to be an out and out leaguer, as Spalding is an out and out I. V. A. He is a hand-picked chairman of the Republican wing of the I. V. A.

This situation then throws Republicans by sheer logic back to Gunder Olson, National Committeeman, who was endorsed at two Bismarck conventions of Republicans representing all shades of factions opposed to the Nonpartisan league regime. Olson was also selected at a Republican primary.

The Tribune offers this merely in the interests of harmony. If the Republican ranks are to be divided in the primaries, it is not very hard to foretell the results.

Let the national committeeman call a meeting of Republicans and let the test of a Republican be one who will sign the national platform adopted at Chicago upon which the Republican party fought its national campaign. That platform surely is acceptable to all republicans for purposes of seating delegates in the convention. The convention itself could decide what to do in the formulation of a state program.

Contention may be so bitter in the Republican ranks that no convention truly representative of the party can be held. If such a situation develops, the state will be left to the tender mercies of the primary. No faction need delude itself into thinking that it will have a clear track. If the I. V. A. start to gum up the cards for their political opponents, their cards too will be badly mixed. The crisis calls for cool heads on the part of Republicans without interference from a mugwump organization which is out for its mess of potage and to do vengeance upon its political enemies.

Currency has to be pretty elastic to go around a family.

WHISKERS BECOME POPULAR

After centuries of popularity, whiskers suddenly become unpopular in France. Dapper Frenchmen are shelling their beards. All because "Bluebeard" Landru had a magnificent display of whiskers of plain and fancy variety when he went to the guillotine.

Curious study is psychology, of unfashionable depths, always furnishing surprises.

Styles are expressions of freakish kinks in the human brain. Frederick the Great put sharp brass buttons on his soldiers' cuffs to prevent using sleeve as handkerchief. The custom lives on in useless buttons now work on the cuffs of men's coats.

STRAPHANGERS

A seat for every passenger on subways and elevated trains during rush hours. This is the goal of the transit commission of New York City.

It already is done in many German towns.

A considerable fraction of street car patrons would be willing to pay double or triple fare for the guaranty of a seat. Seats could be sold by numbered tickets, same as in a theater, sale stopping when all seats were engaged.

Running part of the street cars like this might put many financially crippled transportation companies back on their feet. Street car Pullman service will come.

FREE MOVIES

In one year, more than 1,000,000 American farmers have seen the free moving picture shows furnished by the Department of Agriculture. The subjects of the films are educational all the way from building silos to getting rid of ticks.

In developing the movie as an educational device, the farm will lead the city.

That is natural, for the farmer works first, plays afterward. Most city people are less productive. They work chiefly to attain the one end, pleasure.

The Lincoln Highway Association reports 327 miles of new construction added to the highway in 1921.

This is good news, for good paved roads and railways now are the arteries of distribution. Their cost, though, is terrific.

That would be the great advantage of shifting traffic to airplanes—no roads to pave, no pavements to repair, no steel rails to lay and replace, no ballasting of rail beds.

REFORESTATION

In New York state the forestry conservation commission has 150,000 fast-growing baby trees. It offers these at very low prices, as part of the reforestation program.

The states or national government could solve the vanishing-forest problem quickly by giving away young trees to all willing to plant them. Who can resist something for nothing? Few.

With the movie stars, fortune is their misfortune.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

DESERVES ANOTHER TERM

Senator McCumber deserves much credit and consideration for the fight he has put up in Congress to secure seed for North Dakota. He has kept posted on the conditions and the needs of his home state and has been working incessantly to get an appropriation that would bring relief. The fact that he is a senior senator and occupies the chairmanship of the most important senate committee assisted him in getting an appropriation through.

A junior senator would not get very far with an appropriation these times. Senator McCumber has reached a position in the senate of prominence and influence and it would be folly for North Dakota to think of replacing him with a new man, who would have no prestige in the senate. McCumber is in a position where he can do something for North Dakota. It is a good plan to let well enough alone and give him another term.—The Carson Press.

TOO MUCH TRUST IN INSPECTION

Findings of the coroner's jury on the Knickerbocker theater disaster in Washington are what was to have been expected. They tell of efforts at cheapness at the expense of safety on the part of architects and contractors, of laxity and perfunctory performance, if not outright neglect of duty on the part of officials. Authorities agree that even the unusual weight of snow that fell on the fatal night would not have endangered a well-built roof, in which the requirements of law had been followed. Flimsy, showy construction gave way to only slight pressure.

One of the worst faults of the system by which the lives of people depend on the fidelity of a host of inspectors is thus exposed. A false sense of security is inspired by a code of regulations and by the appointment of officials to enforce it. Unless these officials are held to strict performance of their duty and to strict accountability for their delinquencies, people who frequent public buildings would better trust to their own judgment as to whether owners, architects and builders will erect sound structures, for trust in inspectors may lead them into deathtraps.—Portland Oregonian.

LET US BE DONE WITH THIS BULLDOZING

MANDAN NEWS

Josephine Zahn Leads School Class Average

The grade averages of the fourth period in the Mandan high school which began the latter part of January show some of the leaders of other periods still holding the honors. A number of the students have been nosed out of their former places by a few tenths in the averages but practically the same ones are holding the five high places in their respective classes. Principal Bergheim completed the averages yesterday.

The girls seem to have a monopoly on the high marks as the records show that of the twenty leaders in the four high school classes there are only three boys.

The five students holding the four high averages for the whole school, out of 235 students, are:

Josephine Zahn, first.

Rose Hopf and Marie McGinnis, second.

Alice Wilkinson, third.

Margaret Stein.

Josephine Zahn held the high honors the last time the records were made public.

Following are the names and averages of the five high in each of the four classes:

Seniors: Everett Peterson, 95; Michael Tokach, 95; Ruth Walker, 93.33; Esther Rask, 89; Agnes Butje, 87.

Juniors: Josephine Zahn, 96.2; Marie McGinnis, 95.7; Margaret Stein, 95.5; Ruth Walker, 93.33; Clara Walser, 92.25.

Sophomores: Lillie Christensen, 9; Palma Fristad, 92.25; Eva Collins, 91.7; Evelyn Wray, 90.25; Howard Shaw, 9.7.

Freshmen: Rose Hopf, 95.7; Alice Wilkinson, 95.66; Martha Nigg, 93.25; Magdalen Schant, 94.75; Edn Blach, 94.75.

Mr. and Mrs. George A. Dalley returned on Saturday from Long Beach, California, where they have been spending the winter.

I. C. Iverson has returned from Minnesota, where he has been visiting relatives for the past ten days.

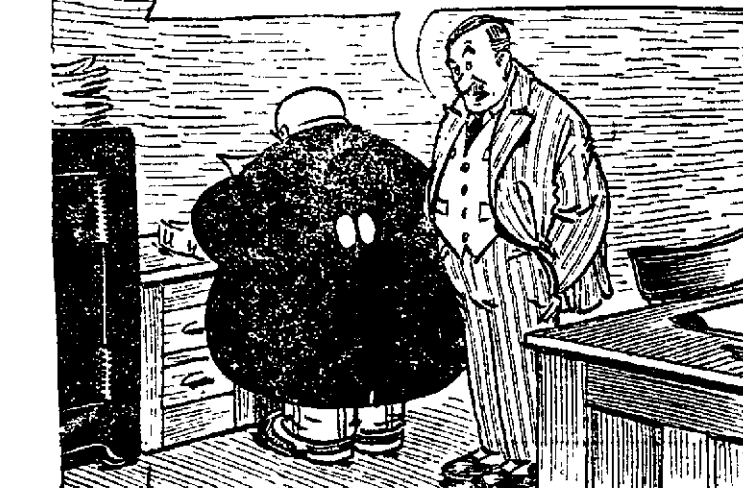

Mr. and Mrs. James Kunkel and family left yesterday for Montpelier, Ohio to make their future home. Mr. Kunkel, who has been in the employ of the Vallancey Hardware store will go into the farming business in Ohio.

Albert Bates of St. Paul, Minn., is visiting in Mandan, having been called there by the illness of his brother James.

EVERETT TRUE

BY CONDO

WELL, EVERETT, HERE IT IS—BLUE MONDAY AGAIN!!

I KNOW IT!! I KNOW IT!!!—I'M NOT COLOR BLIND!!!

FAITH AND UNFAITH

(Florence Berner.)

"I love my love, and my love loves me," Sang the robin up in the apple tree, As he gaily flitted in and out, Where the flick'ring shadows played about The nest of his mate in ecstasy—"I love my love, and my love loves me."

"I love my love, and my love loves me," Came the droning call of the bumble bee, As he sipped the wine from the pearly cup Of the lily bell, ere she closed it up; And the chorus rang from each leafy tree: "I love my love, and my love loves me."

But the maid with a daisy sat in the sun, Pulling the petals one by one; Softly she'd sigh, then cast each away, Over and over one thing she'd say; And these were her words in that garden spot: "He loves me—he loves me not."

AT THE THEATERS

The Capitol

In an exciting story that skips dithely from New Orleans in carnival time to New York's Gay White Way, and thence to the gaming halls of Monte Carlo, Dorothy Dalton, the pretty Paramount star, will be seen at the Capitol theater tonight and tomorrow. The picture is "A Romantic Adventure," adapted from a popular novel by Charles Belmont Davis.

Miss Dalton has the role of a dancing girl who is being exploited by a frivolous-minded mother for her own purposes. As Queen of the Carnival, she star introduces some startling new steps and later repeats her success on the Broadway stage. At a college football game, she encounters a man who is the absolute opposite of the representatives of the sex with whom her mother has been urging her to associate. Later, when she is about to be forced into an uncongenial match with a rich Italian, who woos her at Monte Carlo, the football man reappears, and a dramatic game of love against trick-

The Eltinge

One of the best pictures dealing with gay and irresponsible modern youth ever screened. This is "Enchantment," a Cosmopolitan-Paramount picture starring Marion Davies. It is a story of a modern girl "flapper" who believes in having a good time and has it. Her parents cannot understand her, but she understands them in one word—old-fashioned. They are not quite so slow as she imagines, for when the father decides to take her in hand he does so thoroughly. How the girl, Ethel, reacts the regimen and what happens to the father's carefully laid plans, compose the high spots of the story.

It is the best picture in which Miss Davies has been seen for a long time and it has an absolutely interesting story. The picture was directed by Robert G. Vignola, and it's based on Frank R. Adams story "Man-handling Ethel." The support was excellent.

ery is played to a surprising conclusion.

Charles Meredith is Miss Dalton's leading man, and the picture was directed by Harley Knoles.

There are children in New York who think birds and flowers grow on hats.

Once they married drinking men to reform them; now they marry drinking men to find where they get it.

Originators of national prune week seem full of their subject.

ADVENTURE OF THE TWINS

By Olive Barton Roberts

Mr. Pim Pim and Kip listened to the Twins' story and how they had lost their way on the Glass Mountain.

"It's clear to be seen," said Pim Pim finally, "that you'll need help, my young friends, for you have passed over the two easiest mountains of the lot. The five ahead grow harder in turn until you come to the last. And you'll be lucky indeed if you can get past it."

"What are the other mountains?" asked Nancy anxiously.

"Well," said Mr. Pim Pim, "they are the Electric Mountain, the Eldersdown Mountain, the Chocolate Mountain, the Five-and-Ten-Cent Store Mountain, and the Mountain-That-Isn't-There."

"They all sound nice enough," said Nick.

"Well, just wait and see," said Kip wagging his head. "It's too bad you didn't get some of the rubber off Rubber Mountain to tie onto the soles of your shoes."

"Because you can't step on the Electric Mountain without getting shocked. And every time you get a shock, you fall down and roll off. The result is, you never get over it."

answered Mr. Pim Pim. "Unless you have rubber or glass to walk on."

"Oh," said Nancy suddenly, thinking of something. "If we only had our galoshes, Nick! We left them in the Sorcerer's Cave."

"Galoshes! In the Sorcerer's Cave!" cried Kip. "Oh, then, here's where I come in. It won't take me long, with a couple of dozen Brownie helpers, to dig an underground tunnel right to the place and get them for you. You see I used to be so mischievous and did so much harm, that I'm spending the rest of my life doing good deeds."

"The shovel is in the Enchanted Cupboard," said Mr. Pim Pim. "Here's the key."

Off started Kip to gather Brownies to help him dig a tunnel and get the much-needed galoshes.

(To Be Continued.)

STRANGE WILL MAY PREVENT PARK PURCHASE

A Move for the Purchase of Mammoth Cave, Ky., as National Park, is Under Way

Louisville, Ky., March 13.—Unless the government acts soon, a will, with a strange request, may prevent the purchase of Mammoth Cave, Kentucky, as a national park. This was pointed out by Stephen T. Mather, director of national parks, in a report recently issued. A move for the purchase of the Cave as a national park is now under way and has been urged upon Congress for action.

"The 3,000 acres sought for the park purposes at the entrance to Mammoth Cave," says Mr. Mather's report, are in private hands under the terms of a famous will which dictated that the land must be held in trust until such time as the death of the last of the named heirs occurs, when it is to be sold at public auction in its entirety.

"Because of the advanced age of the two surviving heirs, it may be expected that it will not be long before this world-famed cavern will be sold under the hammer, and unless some means are found to take it over nationally at that time either through Congressional appropriation or through donation of some public-spirited individual or organization, the cave will be lost for all time as a national park possibility and will continue to be privately exploited."

"I trust Congress will make an exception in its evident policy not to utilize public funds in the acquisition of park areas by purchase of the Great Mammoth Cave of Kentucky."

CARRINGTON MAN MISSING YEARS IS HEARD FROM

Letter Received Purporting to be Signed by William Shiftlet

LEFT 14 YEARS AGO

Carrington, N. D., March 13.—Through a letter received here by Richard Tenborg, purported to have been signed by William Shiftlet, who disappeared from Carrington more than 14 years ago, the mysterious exit of Shiftlet may be cleared, in the belief of authorities familiar with the case. The letter was postmarked Coldwater, Mich., and inquired about the Shiftlet family.

Contents of the letter, the body of which is believed to have been written by a person other than the signer, says:

"I am writing you to find the whereabouts of a family by the name of Jos. W. Shiftlet. Fourteen years ago they lived on a farm located from three to five miles east of the city. I have forgotten the exact distance. Have forgotten the R. F. D. number also. "I am sick in bed and would like to locate him if possible."

Family's Record Coming to Carrington from Virginia more than 20 years ago, the Shiftlet family had a record of sensational events. One day about 14 years ago, Willie and Anfield Shiftlet were in Carrington. Willie disappeared late in the afternoon and there had never been a trace of him until this week when that letter supposed to have been written for him arrived. He was then a lad of 15 or 16 years old.

Some years later, upon their return one afternoon from field work, Mrs. Shiftlet, the mother, was found dead in the cellar of the house. A rifle was found near her and it was generally believed she had taken her life.

Thought Father Cremated About six years ago, Joe Shiftlet, the father, also disappeared. His son Anfield, who had gained some fame as "the boy preacher," maintained that his father had gone to Washington to sell the rights to the Allies to use a "bullet deflector" that Anfield had invented. The deflector, upon later investigation turned out to be a cow bell filled with mud.

A day or two before the culmination of this phase of the Shiftlet history a letter was received here signed by "Joseph Shiftlet," and telling of the success he was having in Washington selling the deflector. The letter bore a Soo railway postoffice mark.

"Boy Preacher" Kills Self Suspicion grew rapidly that the elder Shiftlet had been murdered by his son Anfield and the body burned in a strawstack on the farm. A. B. Morgan, then sheriff went to the farm to arrest Anfield. The boy had fled in an auto. Mr. Morgan later got his trail and found him on a farm near Selz on the new Great North-west line near Harvey. There Anfield was found plowing in a field. When he saw the sheriff coming across the plowing after him, the boy pulled out a revolver and killed himself.

Some small metal articles were found in the burned strawpile and were identified as belonging to the elder Shiftlet and although it has never been fully established that he was killed and his body burned to ashes there, such has been the general belief.

Edward Shiftlet, the other boy in the family, moved soon after these tragedies to Beaver Dam, Wis., where he was married. He died during the flu epidemic three years ago.

There was little equity left to the family in the Shiftlet farm near Carrington and in due time it was sold through the county court.

An effort will now be made to try to have the identity of Willie Shiftlet proven.

Late Pope Was Outspoken In His Criticism

Paris, Mar. 13.—The late Pope Benedict XV was a militant feminist and many times expressed the opinion that women had a great mission in the world for Christianity in particular, but he was as outspoken in his criticism as he was in his praise when some trait in woman did not meet with his approval.

He thoroughly disliked short skirts. According to a story which has just come from Rome, the Pope noticed one day crossing the court of St. Damiano a woman who had called at the Vatican on some business with the Secretariat. She was wearing the latest Paris style of skirt which barely covered the knees.

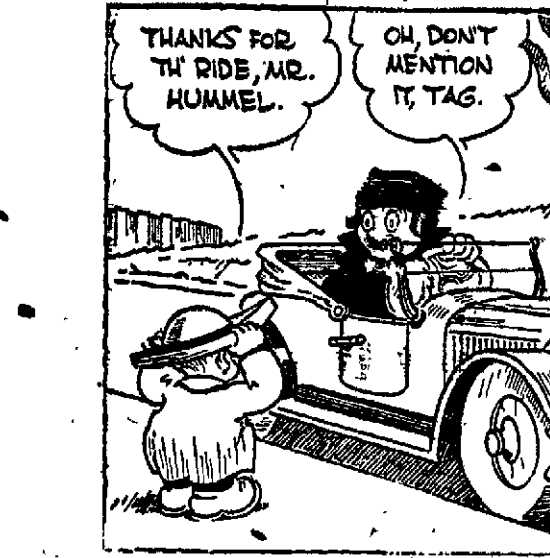

Turning to one of the Bishops near him, the Pope said: "I really cannot understand some women. They have no respect for anyone, not even the Pope. In the days of my youth I recall that all the young girls, my sisters for instance, were pestering their mothers to put them in long skirts. Now it appears that all the old women wish to wear short ones."

The Ready Answer. A schoolboy answering the question, "What was the Sherman act?" replied, "Marching through Georgia."

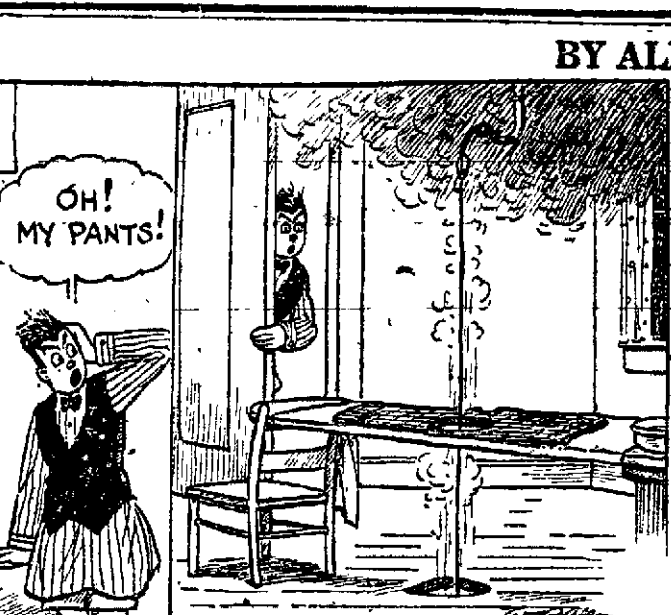

DOINGS OF THE DUFFS

FRECKLES AND HIS FRIENDS

An Explosive Phone Call.

BY ALLMAN

QUAIL ARE CLASSED AS SONGBIRDS

St. Paul, Minn., March 13.—Quail are songbirds, according to the executive committee of the State Humane Society. Maintaining that they are also allies of farmers, resolutions adopted by the committee urge that all farmers of the states they inhabit be asked to feed and care for them. It is asserted that the work and the small amount of grain thus expended would be abundantly repaid in the destruction of insect pests and the seeds of noxious weeds.

The resolutions also propose that quail shooting be prohibited indefinitely. Without such protection the birds are in danger of extermination, says Sam F. Fullerton, executive agent of the society. The society wants quail shooting stopped for a general reason at least. Although there is now a closed season on quail in this state, it will soon expire.

Every U. S. Citizen Subject To Income Tax Law Provisions

Every citizen of the United States is subject to the provisions of the income tax law. He may live in this country or he may live abroad, possessing no property within the United States and deriving no income from sources within the United States. Nevertheless he must file a return if single and his net income for 1921 was \$1,000 or more or his gross income \$5,000 or more, or if married and his net income was \$2,000 or more or his gross income was \$5,000 or more. Divorcees or persons separated from husband or wife by mutual agreement are classified as single persons.

The same obligation to file a return and pay a tax rests on a resident alien, although his entire income may be derived from sources without the United States.

While forms were sent to persons who last year filed returns, failure to receive a form does not relieve an individual of his or her obligation to file a return and pay the tax on time—on or before March 15, if filed on a calendar year basis. Forms 1040-A for returns of \$5,000 and less and 1040 for returns of incomes in excess of \$5,000 may be obtained at the office of Collector of Internal Revenue at Fargo, and the following branch offices: Grand Forks, Devils Lake, Minot and Bismarck.

To Whom It May Concern: You are hereby notified that from and after March 10, 1922, I will not be responsible for any debts contracted by any person other than myself, with-out my written consent therefore.

MARKETS

HOGS 50¢ OFF DURING PAST WEEK
South St. Paul, Minn., March 13.—With an increase of about 12,500 in local hog receipts last week and a dropping off in shipping orders, the market decline 50¢ to 60¢ on the average. Good and choice butchers and light weight hogs closed at \$10.25 to \$10.70, heavy packers \$8.75 to \$9.00, bulk of good pigs \$10.50.

An increased supply rather than any decrease in the demand from the country for stockers and feeders caused prices of these to break unevenly the past week. Good and choice stockers and feeders on the fat cattle order selling from \$6.50 to \$7.25 held steady to 25¢ lower, with bulk of common and medium grades at \$5.00 to \$6.25, losing unevenly 25¢ to 50¢ or more.

Scarcity of fat cattle held these kinds mostly steady, although commonest kinds were weak to 25¢ lower in sympathy with the stocker and feeder market. At few old head of good and choice beef steers sold from \$8.50 to \$9.25, best load lot at \$8.00. Quality of fat cattle is improving somewhat and a considerable number sold at \$7.35 to \$7.75, with bulk of best steers at \$6.00 to \$7.25. Best fat heifers, sold from \$6.25 to \$7.50, with bulk of butcher cows and heifers at \$4.00 to \$5.00. Canners and cutters sold from \$2.25 to \$3.50, hologna bulls, \$3.00 to \$4.00. Some extra choice vealers brought \$5.00 at the close, with most of the best lights \$7.50, seconds \$4.50 to \$5.50.

Fat lambs have gained 50¢ to 1.00 this week, best fed westerns reaching \$15.25 to \$15.50, and good and choice fat native lambs \$14.50 to \$15.00. Good and choice grade fat ewes are quotable from \$7.50 to \$8.50, culls down around \$4.00 to \$4.50.

DECLINES IN WHEAT

Chicago, March 13.—Better crop conditions in the Southwest led to material declines in wheat prices today during the first part of the board session, further gains were reported in Kansas and Oklahoma. Besides unpromising views of the economic outlook tended to weaken values. The opening which varied from 1-8 lower to 1-2 cent advance was followed by decided downturns all around.

Chicago, March 13.—Cattle receipts 2,700, slow. Killing classes mostly steady to weak. Relatively few fed cattle here. Common to medium beef steers \$6.00 to \$7.75. Bulk \$6.25 to \$7.00. Butcher cows and heifers mostly \$4.00 to \$5.75. Few \$6.00 to \$7.00. Largely handweight heifers. Stockers and feeders dull, good and choice grades steady to weak. Common and medium grades weak 1-35 cents lower. Bulk \$5.00 to \$6.25. Calves receipts 6,200. Bulk \$7.50; seconds weak to lower, \$4.00 to \$5.00. Hog receipts 7,300. Slow. Early sales mostly 50 to 65 cents lower. Range \$8.00 to \$10.00. Bulk \$9.60 to \$9.75. Bulk of desirable pigs \$9.53. About 2,000 pigs here.

Sheep receipts, 3,400. About 800 on sale, balance billed through. Mostly steady. No good or choice fed stock here.

CHICAGO LIVESTOCK

Chicago, March 13.—Cattle receipts 24,000. Slow. 15 to 25 cents lower. Hog receipts 7,300. 15 to 25 cents lower. Sheep receipts 14,000. Slow. Asking higher.

BY STANLEY

DETROIT STREET CAR PROBLEM UP TO VOTERS

Detroit, Mich., March 13.—Detroit street railway problem, storm center of every municipal election for upwards of twenty years, may be settled April 17. On that date the voters will be asked to pass upon the question of paying the Detroit United Railway company \$10,850,000 for the major part of its property within the city limits. If the voters endorse the action of city officials in offering that sum for the property, the concern's lines will become a part of the municipally owned street railway system. In that event this city will boast of the largest unified municipally owned street car system in the world.

DETROIT STREET CAR PROBLEM UP TO VOTERS

Of greater significance to Detroiters, however, would be the end of a street car war that has been the chief issue in at least a dozen municipal elections.

The fight for a municipally owned system culminated about 2 years ago when the voters approved a plan for a city-controlled concern, that was to be operated in opposition to the Detroit United. As a result of the election a series of suits were filed by the D. U. R. each of which either directly or indirectly challenged the right of the city to proceed with the building of its own railway system. The city won each of the suits in every court into which they were carried. Legality of the election was affirmed by the United States supreme court.

BISMARCK HIGH SCHOOL, PLAYING FINE BASKETBALL, WINS DISTRICT TITLE FROM MANDAN HIGH, 20 TO 15

Both Teams Play Good Basketball, with Mandan Leading at End of First Half

LOCALS IN COME - BACK

(By Newell Hamilton.)

In the final game of the district tournament at Mandan Saturday evening, Bismarck defeated the Mandan quintet by a score of 20 to 15. Both teams played a high class of basketball throughout, Mandan having the edge in the first half and Bismarck coming back strong in the last with the winning points. For Mandan Gray played a fast and hard game. Brown played a stellar game for Bismarck while Scroggins and Doyle were good defensive.

Mandan has held the district title for the last four years and her supporters confidently expected it again this year.

Bismarck started the game with a rush, Scroggins making a basket from center and Doyle following it with a second basket. A foul on Bismarck gave Nelson a chance to score. He missed the free throw. A few minutes later a second foul was called on Bismarck and Nelson scored one point for Mandan. A foul was called on Mandan and Alfson made the free throw. By a basket and two free throws Nelson tied the score. Newgard scored two points for Mandan. Scroggins made another long basket which was followed a few minutes later by a basket by Gray. Brown was substituted for Kludt. Newgard made a second basket. Nelson missed a free throw and the half ended, Bismarck 9, Mandan 11.

SECOND HALF

Bismarck came back in the second half with a short passing offense and a much stronger defense. Alfson started the scoring by making three free throws. Brown made a spectacular shot from the center of the floor and in the next few seconds made another fairly long shot. Mandan called time out. Penning went in for Love. Brown worked around the guards for a third basket. Nelson missed two free throws but Gray came thru with a basket. Bismarck time out. Love again entered the game taking Penning's place. Love made a basket but it was not counted because of a foul which was called on Bismarck. Nelson missed the free throw. Penning for Love. Alfson shot a basket and Bismarck's offensive showed up with two minutes to play. The game ended Bismarck 20, Mandan 15.

DAKOTA LEAGUE IS REORGANIZED

Jamestown and Valley City Voted Franchise

Fargo, March 13.—Reorganization of the Dakota League was completed in a meeting here Sunday, attended by representatives of Wahpeton, Sioux Falls, Mitchell, Aberdeen, Watertown, Fargo, Jamestown and Valley City. The latter three towns applied for and were awarded contracts and arrangements made for posting \$1500 forfeit by the new members.

Amendments to the constitution and new rulings provided for: three years franchises instead of one year; 50-50 gate receipts split instead of 40 to visitors and 60 to home clubs; salary limit \$2400 per month instead of \$1800; not including manager's salary and \$200 a month limit individual salaries except managers.

It was agreed to have a 98-game schedule.

ALL-DISTRICT TEAM PICKED

Eugene McFarland, of Valley City, and Ray Bolsiger, of Fargo, officials in the basketball district tournament at Mandan, picked an all-district team as follows: Forwards Gray, Mandan; Brown, Bismarck; center, Alfson, Bismarck; standing guard, Scroggins, Bismarck; and no choice between Newgard, Mandan, and Doyle, Bismarck, for running guard.

The officials gave Gray first place for forward, and held Alfson and Scroggins were without rivals for their respective positions.

SATURDAY BASKETBALL

Fargo 32, Casselton 18.
North Dakota Aggies 26, Macalester 17.
Wadena 36, Fergus Falls 17.
Fargo 41, Wahpeton 14.
Casselton 43, Tower City 20.
Valley City 22, Ellendale 5.
Jamestown 22, Carrington 16.
Valley City 22, Jamestown 7.
Bismarck 20, Mandan 15.
Dickinson 39, Hettinger 13.
Grand Forks 23, Grafton 10.
Dickinson 27, Beach 15.
Langdon 30, Northwood 15.
Grand Forks 27, Langdon 13.
Egeland 24, Lakota 16.
Devils Lake 31, Cando 18.
Egeland 25, Devils Lake 19.
Minot 19, Rugby 12.
Drake 22, Berthold 13.
Minot 16, Drake 11.

BISMARCK HIGH CAGERS ENTER STATE TOURNAMENT WITH GOOD CHANCE TO CAPTURE THE TITLE

The fast Bismarck high school basketball team will enter the state high school tournament to be played in the agricultural College gymnasium at Fargo, Friday and Saturday, March 24 and 25. The local team won this right by defeating Mandan in the district tournament play Saturday night at Mandan, 20 to 15.

The local team is held to have a good chance for the state title, if the team plays its best form throughout. The Bismarck team has appeared at times almost unbeatable, and has a creditable record, although it has suffered surprising reverses.

Teams to play in the state tournament are from Fargo, Valley City, Bismarck, Dickinson, Grand Forks, Egeland, Minot and Kenmare.

Bismarck has defeated Valley City, Fargo and Dickinson on her own floor, and has in turn been defeated by them on their floors. Bismarck also has defeated Drake high school, which was defeated by Minot in the district play, 16 to 11. Grand Forks has been defeated by Fargo High.

Fargo high probably has the edge in "dope," but Bismarck has a strong chance for the title. Drawings will be made the day of the contest.

Kenmare 9, Donnybrook 11.
Cassellton 20, Hamline 21.
Wisconsin 31, Chicago 24.
La Crosse 38, Sparta 17.
Wabash college 43, Kalamazoo 23.
S. D. State 39, Aberdeen Normal 22.

MISSISSIPPI INDIANS ARE QUARRELSOME

The Choctaws Are Divided Into 10 Clans and Are Always At Loggerheads

Mushogee, Okla., March 13.—Fourteen hundred members of the Choctaw Indian tribe residing in the state of Mississippi are in a deplorable condition, in the opinion of Peter J. Hudson, of Tuskahoma, member of the Oklahoma Choctaw tribe, who has returned from a month's mission among the Mississippi Indians. Mr. Hudson and the late Monsigneur W. H. Ketcham of Oklahoma City were delegated by Indian Commissioner Burke to make an investigation of the condition of the tribe in that state. Monsigneur Ketcham died suddenly at Philadelphia, Miss., while engaged in the work.

The 1,400 Mississippi Choctaws are divided into ten clans and they are constantly quarreling, according to Mr. Hudson. Originally their ancestors were members of the Choctaw tribe that migrated to Indian Territory in the early 30's. They have made no progressive steps in the past 100 years, Mr. Hudson says, and he declares their greatest need is education. Their sole occupation is farming and as such they are tenant farmers of whites.

"I am firmly convinced that by education alone can the customs and barriers of hundreds of years be broken," says Mr. Hudson, "to impress the Choctaws with the responsibilities of citizenship. Today they exercise no right of franchise and are not on terms of social equality with the white citizens of Mississippi."

"It will require many years to bring about the education of the young Choctaws of Mississippi."

OLD NOTE FOR \$63.62 MAY BE WORTH FORTUNE

Berkeley, Cal., March 13.—An old promissory note, given by the commonwealth of Massachusetts to Samuel T. Mather in 1794 for \$63.62 and five per cent interest, compounded semi-annually, may bring between \$30,000 and \$40,000 to Mather's great-granddaughter, Mrs. Almyra Gaylord Conner, a young kindergarten teacher of Berkeley.

While in the east last summer attending her mother's funeral, Mrs. Conner found the note unpaid, in an old family trunk, which had been given her years ago for her dolls' clothes.

Mrs. Conner took the note to an attorney who advised her that payment could not be made without the passage by the Massachusetts legislature of a special act, for in 1821 the legislature passed a bill calling for payment of all such notes and providing that interest would not be paid after a reasonable time was given for presentation.

A bill has been introduced in the legislature, Mrs. Conner has been advised, calling for payment of the note, and she has been notified to be ready to go east soon to attend a hearing on the matter. It is thought that possibly the legislature will authorize payment as the note represents a moral debt, if not a legal one.

THATCHER AND LOFTHUS UNDER PERJURY

(Continued from Page 1)

red to in the written oath herein set forth, is a summary of the financial statement of the Scandinavian-American bank referred to in said written oath of said defendants Myron W. Thatcher and O. E. Loftus, said summary being in words and figures as follows:

Summary		
Capital stock	\$50,000.00	\$50,000.00
Surplus	10,000.00	10,000.00
Profit or loss		
(Loss)	3,114.47	11,284.71
(Profit)		
Net worth	\$56,885.53	71,284.71

Alleges Summary False.

"Said summary as sworn to as aforesaid by the defendants, O. E. Loftus and Myron W. Thatcher, falsely, willfully, deliberately and corruptly, knowing the same to be false, whereas, in truth and fact the net worth of the said bank was not \$71,284.71, but in fact less than \$56,885.53, as the said defendants, O. E. Loftus and Myron W. Thatcher then and there well knew."

England's area is less than half that of Colorado.

FRYING-PAN IS ONE CAUSE OF MALNUTRITION

As a Result, Salvation Army Will Distribute No More Frying-pans in Chicago

Chicago, March 13.—The Salvation Army will distribute no more frying-pans in Chicago. For many years the frying pan has been the culinary standby of the poor family. It will be so no more—not if the Army can prevent it. Brigadier Annie Cowden, territorial directress for all the organization's work among women and children, has discovered that 35 per cent of Chicago's children are undernourished. She took up the matter with Mrs. Ida Bailey Allen, national home economics expert, and the death warrant of the frying-pan was the result. According to Mrs. Allen, 50 per cent of all illness can be traced to improperly prepared food, and 10 per cent of all inefficiency is credited to the same cause.

Brigadier Cowden, after months of investigation, agrees with Mrs. Allen that one of the principal causes of malnutrition is the well known frying-pan. Mrs. Allen stated that it isn't so much poor quality in food as poor preparation of food which is responsible for the under nourishment of children. Denaturalized breakfast foods, careless cooking, and above all, the insidious frying pan are the root of the evil, she contends.

Brigadier Cowden said the Salvation Army through hundreds of slum homes and settlement houses in every part of the world is trying to educate slum mothers in the healthful preparation of foods, that as the 35 per cent of undernourished children in Chicago were found equally in the homes of the poor, the well-to-do and even the wealthy, great benefits would follow more intelligent cooking.

HORNETS AS PAPER MAKERS

The Material They Use Is Wood From Fences, Dead Trees, Etc.

Kansas City, Mo., March 13.—Hornets are the original paper makers. The paper that is made by them is in many respects similar to ours and it is quite possible that we gained our ideas of making paper by watching these busy little workers. They, however, have always made their paper of wood pulp while with us the use of that article is a comparatively recent development in the paper making industry.

To the hornet, the making of this paper is of the greatest importance as it furnishes the material for the hives in which they raise their families.

Their method of constructing these hives is an interesting one. After first selecting a place, they cover it with a mucilaginous paste to which they fasten their nest.

The material that they use is wood obtained from old fences or the dead limbs of trees. This wood pulp is worked by the mandibles of the wasp and when mixed with the adhesive secretion of the salivary glands, produces a substance that is essentially paper. When very good paper is required, the flake is allowed to dry and is chewed again, sometimes two or three times before it is used.

Their hives are composed of horizontal tiers of hexagonal cells about the size of those in the comb of honey. These tiers are placed one above the other and are supported by columns, the whole being enveloped in many thicknesses of water proof paper. It is when these cells are in place, which later hatches into a full fledged wasp and the laborious process of making paper is carried on by these new little builders.

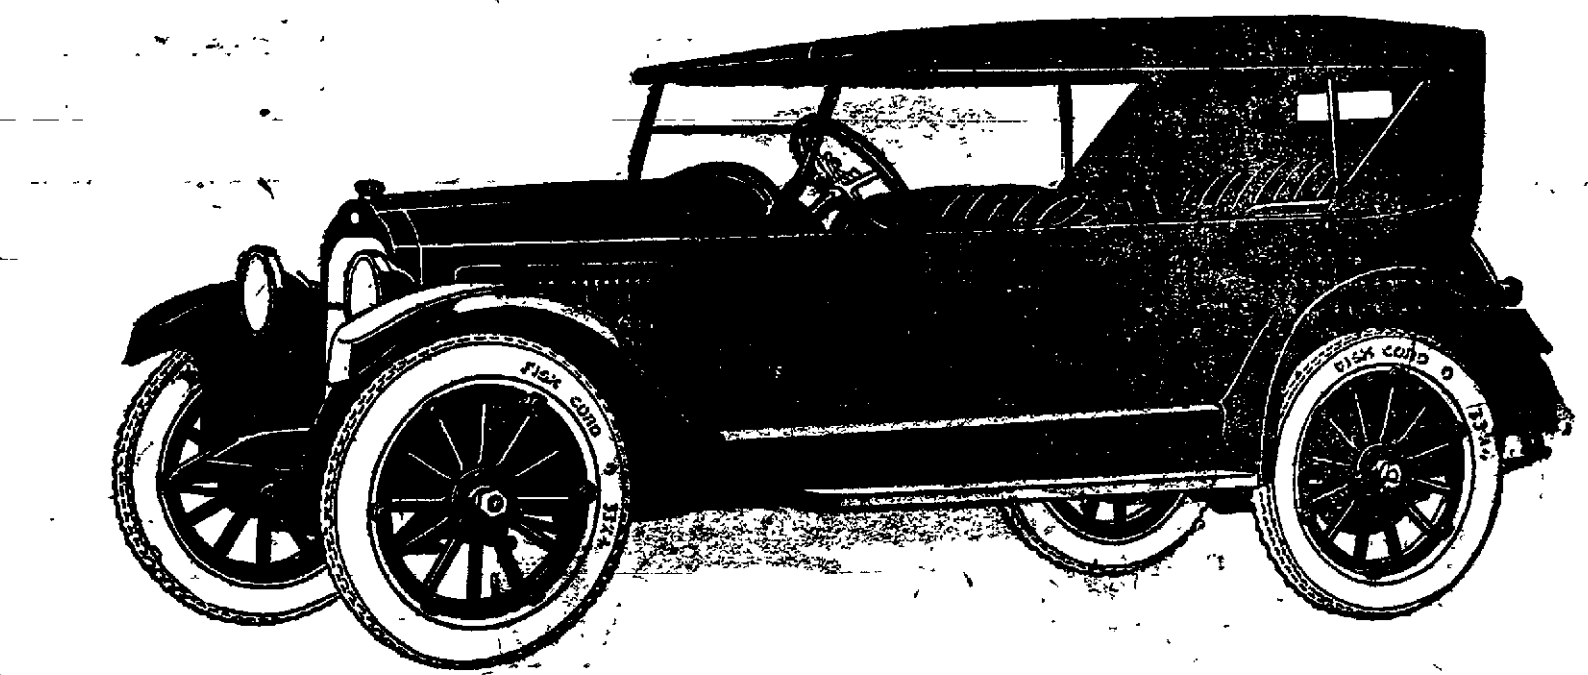

TOWNLEY GETS LACINGS FROM TWO FACTIONS

(Continued from Page 1)

culation to 40,000 of more citizens of the state of North Dakota.

"So far, as you know, we did not get out a special edition containing the retraction, but we have come to a point where we must comply with the stipulation of dismissal. On our failure to do so, the case will be re-opened and the issues involved will be determined at court."

"I felt that, before such special issue was gotten out, the matter should be submitted to your judgment, with the understanding that we would be pleased not to publish any further retraction, conditionally upon being assured against any judgment that might be awarded against the Courier-News. The only way we could be thus secured would be by the giving of a

A New Opportunity for Thousands at This Low New Price \$1375

f. o. b. Toledo

A new, delightful motoring experience awaits thousands who are now able to own and enjoy the brilliant flexibility and luxury which has long made the Willys-Knight car a favorite with people of greater means.

You now can own a car whose life is measured by scores and even hundreds of thousands of miles, with coach and chassis built extra strong and extra quiet to avoid even those minor noises which the quiet Willys-Knight motor would accentuate and make intolerable.

You can free yourself from the annoyance of motor repairs and adjustments; from valve grinding and from noise.

You can enjoy the surprising economy which only a Willys-Knight owner knows, for the Willys-Knight car combines its peculiarly low upkeep economies with the largest known gasoline mileage of any car of its power and weight.

Touring reduced \$150 now \$1375	Roadster reduced \$125 now \$1350	Coupe reduced \$320 now \$1875	Sedan reduced \$300 now \$2095	f. o. b. Toledo

WILLYS-KNIGHT

CANDIDATES ARE GETTING SCARCE

Dickinson, N. D., March 13.—With the withdrawal from the recall race of several candidates interest in the approaching special election lags and from all indications those who have been sponsoring the move must draft a new slate if they are to be represented.

H. P. Johnson, Ormanzo A. Brown and Anton Sadowsky, slated for commissioner seats in the coming election, have withdrawn their names and will not be candidates. Petitions nominating these men had been generously circulated through the city during the early part of the week and many signatures were secured.

Indications now are that the only contest on the city ticket will be between Alfred White and H. A. Diedrich for president of the city Commission and Valentine Koch and A. D. Heaton for finance commissioner. Mr. Koch having announced his candidacy for the post in an interview Thursday. Mr. Heaton at the present time is in Minneapolis but is expected back early next week.

"I am sending this by registered mail, assuring delivery, with the intimation, that an immediate reply is necessary."

"Yours very truly,
"THE COURIER-NEWS,
"By P. L. Aarhus, Manager."

Will Use Russian Govt. Airplanes

Berlin, March 13.—The Russian government and a group of German commercial concerns have founded the Russo-German Air Navigation Company, for the purpose of opening next spring a regular air service between Koenigsberg and Moscow, using Russian government airplanes. The distance is expected to be covered in 22 hours. The interests represented in the new company include the General Electric company, the Hamburg-America Line and the Zeppelin companies.

Race horses are often insured for amounts as high as \$100,000.

RURAL ROUTE IS DISCONTINUED

Dickinson, N. D., March 13.—With the institution of rural route No. 3 out of New England on May 1, the present star route will be discontinued according to a telegram received in Dickinson this week from Congressman J. H. Sinclair, of the third North Dakota district. The new route will serve 106 families and will provide daily mail service to the post office at Scheffeld which is now served tri-

Is That Cold and Cough Hanging On?

You will be convinced that Dr. King's New Discovery does just what it is meant to do—soothe coughs, raw throats, congestion-tormented chests, loosen the phlegm packed and breaks the obstinate cold and gripe attack, relieves the congestion in the head. No harmful drugs, therefore good for children as well as grownups. Right away you will notice the change for the better. Has a convincing, healing taste that you will appreciate. Buy a bottle at any drug-store on the way home to-night, 60c.

Dr. King's New Discovery For Colds and Coughs

Lazy People, Lazy Bowels. Don't neglect constipation. It undermines the health, takes all vim out of you. Dr. King's Pills will invigorate the system, stir up the liver, move the bowels. All druggists, 25c.

PROMPT! WON'T GRIPE

Dr. King's Pills

Is That Cold and Cough Hanging On?

You will be convinced that Dr. King's New Discovery does just what it is meant to do—soothe coughs, raw throats, congestion-tormented chests, loosen the phlegm packed and breaks the obstinate cold and gripe attack, relieves the congestion in the head. No harmful drugs, therefore good for children as well as grownups. Right away you will notice the change for the better. Has a convincing, healing taste that you will appreciate. Buy a bottle at any drug-store on the way home to-night, 60c.

Dr. King's Pills

weekly by star route from Dickinson. The new route will be 30 miles in length and will thoroughly cover the thickly settled community between New England and Scheffeld. It is expected that examinations for rural carriers will be announced in the near future. These will be held at the Dickinson post office.
